## THE ESSENCE OF VITRA

### OPTIMUM SOLUTIONS FOR YOUR PROJECTS

Cutting edge technology, contemporary and innovative designs, reliability, durability and affordability are the corner stones of Vitra's Commercial Collection.

The Commercial Collection includes a wealth of products, available in a range of sizes which are suitable for all types of projects, from housing complexes, hotels and restaurants to smaller projects including private dwellings and public areas.

The Commercial Collection includes washbasins, WCs, urinals, furniture units and wall-hung frames. There are water saving WC pans and an accessible section dedicated to the needs of the less-abled. Watersmart and Waterless urinals and the V-care shower toilet are also featured demonstrating Vitra's commitment to blending contemporary design with 21st Century innovation.

All the products in the brochure have been hand-picked because they lend themselves to being suitable for projects of any scale. To see the full range of products please request a copy of our Designer Collection, Bathroom Collection and Wall-hung Frames & Flushing Solutions brochures.

# AWARDS / ACCREDITATIONS

VitrA bathroom products are designed to combine beauty with practicality, offering the very best in comfort, storage and ease of maintenance.

## DESIGN EXCELLENCE RECOGNISED

The superior design, quality and innovative features of VitrA products are acknowledged with some of the world's most prestigious awards.

## PHILOSOPHY: IT'S ALL ABOUT INSPIRATION

VitrA's quest is to create beautiful, inspiring bathroom environments, and to change our perception of the bathroom from that of a purely functional space into something much more, turning an essential, everyday experience into something beautiful, relaxing and life-enriching.

IN 2016, VITRA'S V-CARE WON FOUR PLUS X AWARDS FOR PRODUCT QUALITY, DESIGN, EASE OF USE AND FUNCTIONALITY, AS WELL AS BEING HONOURED AS BEST PRODUCT FOR 2016/2017

V-care NOA

Water Jewels Matteo Thun & Partners

M-Line – Rim-ex with VitrA Fresh NOA

VitrA's successful relationships with international designers has led to the company winning many accolades for its products. Among these are the Wallpaper Design Award, an Elle Deco Award,

Good Design Award and Red Dot Design Award. VitrA has received three iF product design awards for excellence in product and design quality.

## ACCREDITATIONS

VitrA products have been developed to comply with British and European standards. VitrA is accredited to ISO 9001, ISO 14001, EN 16001 and OHSAS 18001. VitrA also conforms to WRAS flushing standards, BREEAM requirements and UK Building Regulations.

These accreditations ensure compliance with applicable laws and regulations, as well as encouraging minimal environmental impact during the process of design and manufacture of VitrA's products.

# INNOVATION

## EVOLUTION OF THE VITRA BRAND

INTRODUCTION

INTRODUCTION

Süleyman Ferit Bey, Dr. Nejat Eczacıbaşı's father, is given the title of "Eczacıbaşı".

Dr. Nejat Eczacıbaşı establishes a pharmaceutical laboratory in Istanbul. His first product is a vitamin capsule.

1909

1912

1941

1952

1958

1966

1977

1979

Süleyman Ferit Bey buys the Sifa Pharmacy in Izmir and begins producing toothpaste, lotions and creams.

Eczacıbaşı inaugurates the first Turkish modern pharmaceutical plant in Istanbul.

Eczacıbaşı opens Turkey's first production plant for ceramic sanitaryware.

The Vitra brand was first adopted.

The group opened its first brassware plant within its Bozüyük mega complex.

The Eczacıbaşı Group's first ceramic factory in Bozüyük began production (over time this grew to become the Bozüyük mega complex).

Production of acrylic bathtubs and ceramic tiles began at the Tuzla plant.

VitrA opens its first sales and marketing offices outside of Turkey. VitrA Bad (Germany) and VitrA UK Ltd.

1983

1991

1992

1996

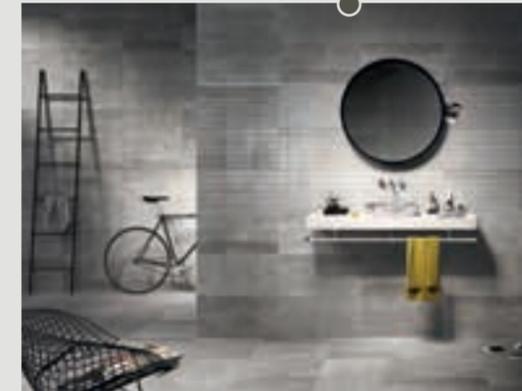

2011

2014

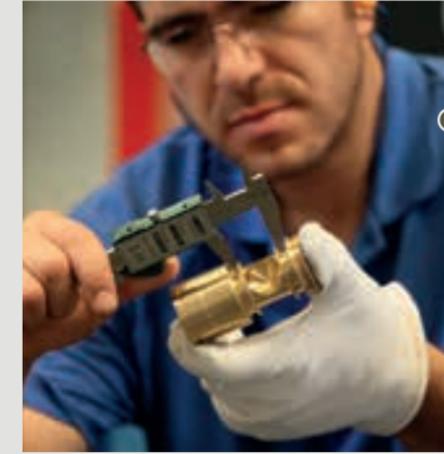

2015

TODAY

The first ceramic sanitaryware exports began.

Eczacıbaşı invests in a second sanitaryware and ceramic tiles production line at the Bozüyük Building Products Complex. With this investment, VitrA has one of the world's largest ceramic sanitaryware production facilities.

Start of a \$45.4m investment in the production plant at the Bozüyük complex to increase capacity by a further 20%.

The Eczacıbaşı Building Products Division assembles all its R&D teams under one roof with the opening of the VitrA Innovation Centre at Bozüyük.

V-care is launched – the new generation of shower toilet.

VitrA is an international brand, producing 6 million pieces of sanitaryware per year and exporting to 75 countries worldwide.

Istanbul range receives the Design Classic award by Pro Publishing.

INNOVATION CENTRE:  
THE CREATIVE HUB FOR DESIGN

A HISTORY OF INGENUITY

Vitra's rich heritage can be traced back to 1909, when renowned Turkish pharmacist Süleyman Ferit Eczacıbaşı began producing bathing and cologne products at his pharmacy in Izmir. Thirty years on, his son Dr Nejat Eczacıbaşı continued the family's flair for innovation by establishing a pharmaceutical laboratory in Istanbul.

This business grew rapidly and in 1952 he opened the first Turkish modern pharmaceutical plant. Within the decade, Eczacıbaşı's vision had grown to encompass ceramic sanitaryware and in 1958 he created the first centre for its production in Turkey. Vitra was born.

INNOVATION CENTRE

Vitra's innovation centre is the creative hub for the design and production of new materials, processes and technologies for our bathroom products and tiles. Here, architects and designers are encouraged to free their imaginations and original ideas are showcased in a setting that blends design with culture, art and lifestyle.

This approach results in innovative solutions that transform an ordinary bathroom into an exceptional living space – new ideas that improve comfort and ergonomics, and ensure sustainability.

INTRODUCTION

## VITRA INFINIT

Basins made from mineral cast are distinguishable by the thin profile edges and clean lines.

Made from a combination of natural stone powder and a polyester resin, mineral cast produces a beautiful finish which is warm to the touch and easy-to-clean. It can also be used to create basins in a wide range of shapes and sizes. Mineral cast is a hard-wearing material with the added benefit of being invisibly repairable in the unlikely event of the basin becoming damaged.

BEAUTIFUL, THIN PROFILE EDGES. SEE AND FEEL THE DIFFERENCE WITH VITRA INFINIT

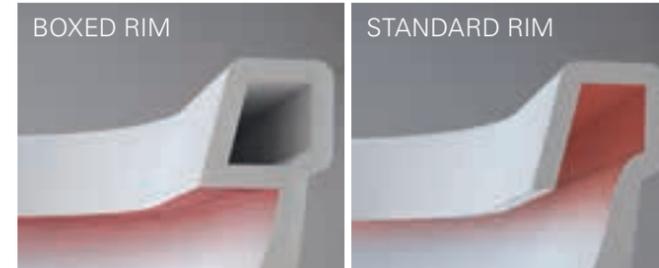

## METALLIC FINISH

Water Jewels is a unique range of PVD coated basins designed by Matteo Thun for Vitra (page 38).

Physical Vapor Deposition (PVD) is a state-of-the-art manufacturing process in which metal powders are vaporised and deposited onto a surface. The metallic coating presents a striking visual and remains corrosion and scratch resistant. The range is available in gold, copper and platinum as well as the traditional white ceramic.

INTRODUCTION

## V-FIT

This system enables wall-hung pans to be positioned onto the bolts in the wall and secured using an allen key from underneath, or through the holes for the seat.

This makes installation quick, easy and delivers a more aesthetically pleasing appearance. Cleaning is easier as there are no external fittings that can attract dust.

## VITRA RIM-EX

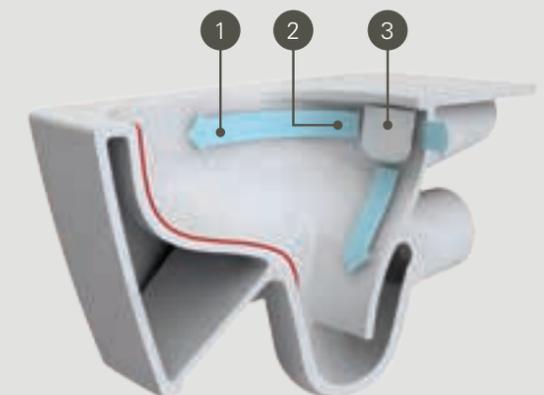

Innovative design for improved hygiene and effortless cleaning.

Vitra's rimless WC pan technology alleviates one of the most unhygienic aspects of traditional WC design, where hard-to-clean rims can harbour germs and allow them to multiply unchecked.

- Easy cleaning
- No rim or holes for germs to collect
- 95% more hygienic than standard WC pans\*\*

\*\*Tests undertaken by the Akdeniz University, Turkey show Rim-ex WC pans are easier to clean and 95% more hygienic compared to standard WC pans.

- 1 RIMLESS BOWL**
  - Easy-to-clean with no rim or channel
  - No rim or holes where dirt and germs can collect
  - Efficient flushing in specially designed bowl
- 2 WATER OUTLET**
  - Specially engineered water diverter
  - Precise water distribution for better flush
  - No hole for bacteria growth
- 3 CERAMIC WATER DISTRIBUTION TOOL**
  - Removable for easy cleaning

## V-CARE

The new generation of shower toilet from Vitra. The functionality of a toilet with the cleaning properties of a bidet, combined in one unit to offer increased cleanliness, hygiene and comfort.

### MORE HYGIENIC

V-care offers hands-free WC usage and with the Comfort model the seat cover opens automatically when you approach. You can simply start the integrated shower function with the touch of

a button while you stay sitting comfortably on the WC. The washing and drying options are also controlled by the remote.

### V-CARE BLENDS PERFECTLY WITH MOST BATHROOM STYLES

### SIMPLE TO OPERATE

V-care can be used via remote control and has a very simple, intuitive user interface. The basic functions of the WC can also be controlled via the left and right side of the toilet itself.

### EASY-TO-CLEAN WC

With no awkward rim to negotiate in the inner bowl and concealed fixings, the V-care WC is very easy-to-clean. Rim-ex technology disposes with the rim inside the WC, enabling cleaning of the inner bowl with a single wipe.

### DESIGNED FOR COMFORT

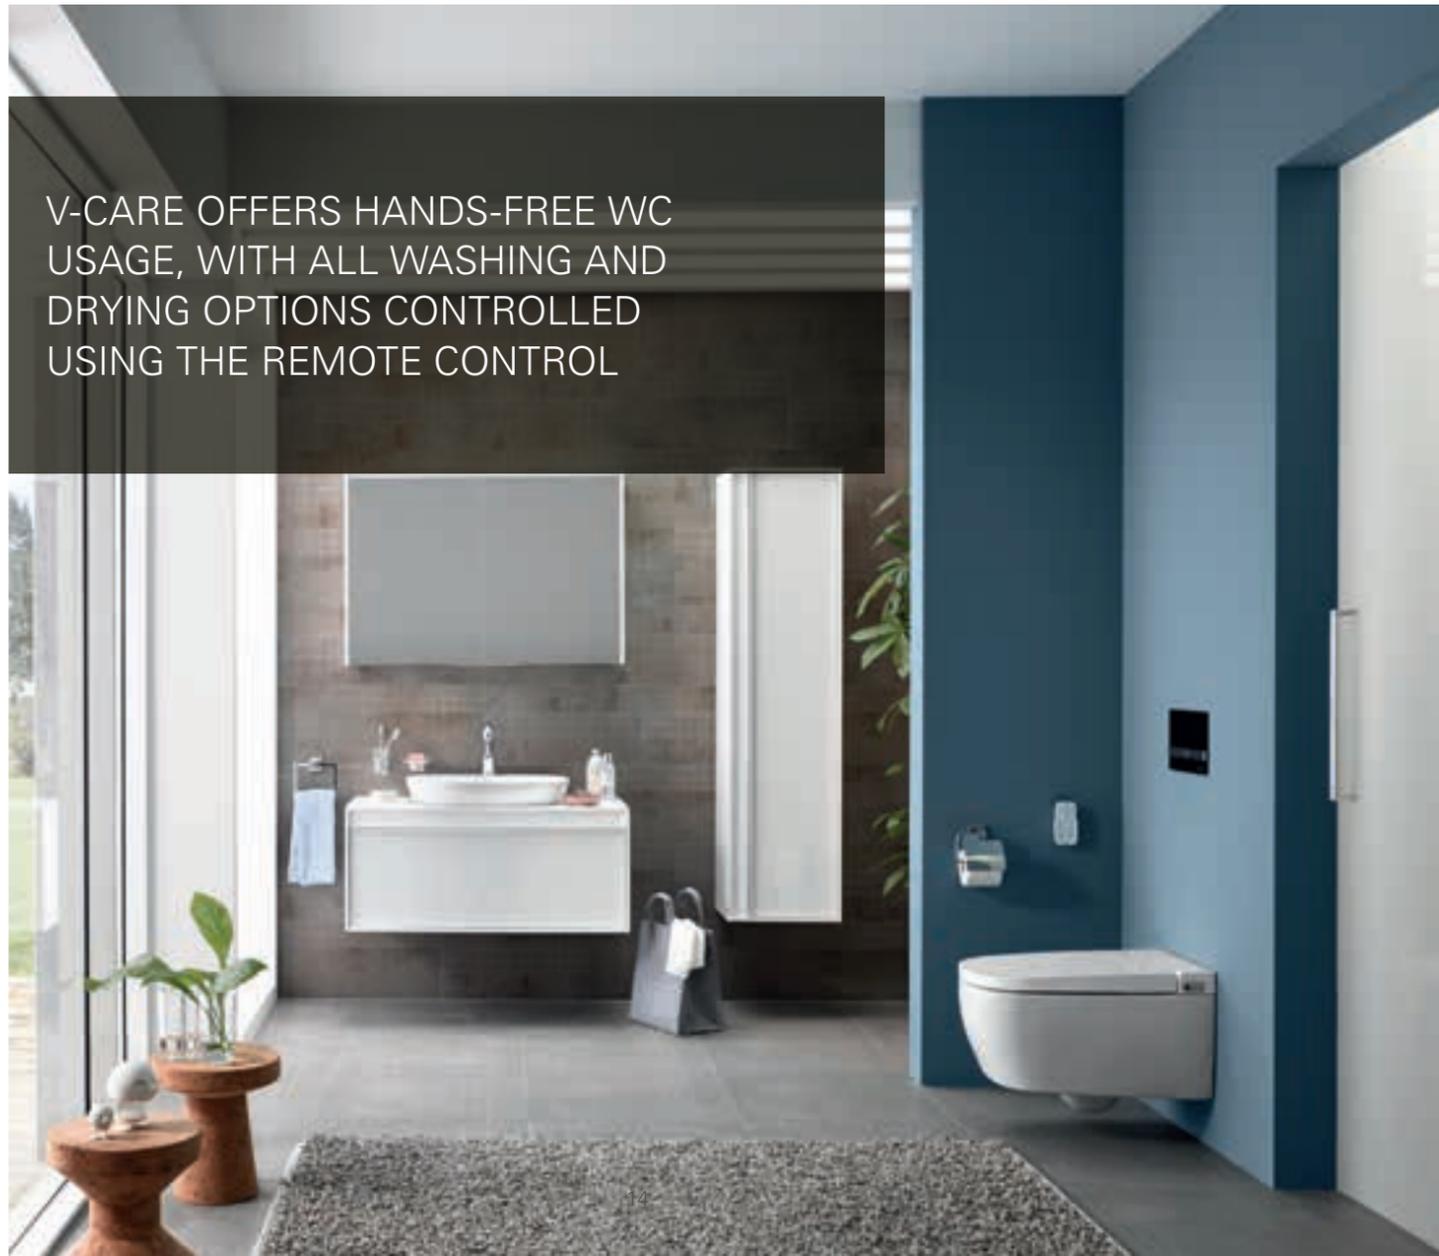

The seat, designed with an ergonomic shape for optimum comfort, comes complete with remote-controlled seat temperature adjustment.

### ENERGY-SAVING FUNCTION

Select from three modes:

1. Standard
2. Energy-saving
3. Stand-by

V-CARE OFFERS HANDS-FREE WC USAGE, WITH ALL WASHING AND DRYING OPTIONS CONTROLLED USING THE REMOTE CONTROL

HANDS-FREE USE

### SPACE-SAVING

V-care combines the functions of a regular toilet with those of a bidet, saving space which would otherwise be occupied by a bidet in the bathroom.

### MORE COMFORTABLE

In addition to five temperature control settings for water, seat and drying functions, the V-care system also enables adjustment of water pressure to ensure maximum comfort.

EASY-TO-CLEAN  
– FURTHER RIM-EX  
DETAILS ON P13

V-CARE CONTINUED

DRYING AND AIR PURIFICATION

After use, a drying function, with adjustable drying temperature, can be selected (Comfort model only).

In both Comfort and Essential models, an air purification process is automatically activated when the user is seated on the WC.

Full details of our V-care WC are available on request or can be found at [vitra-vcare.co.uk](http://vitra-vcare.co.uk)

VITRA FRESH

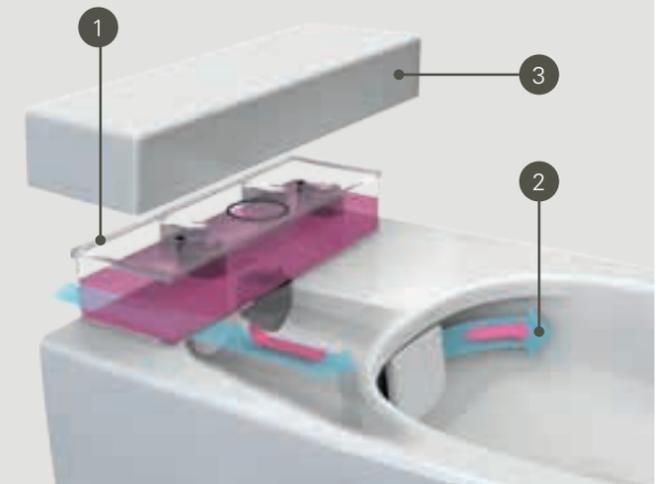

Vitra Fresh WC pans feature an integral tank that dispenses detergent with every flush, helping to clean the pan thoroughly and protect against the build-up of bacteria.

Vitra Fresh prevents the need to add cleaning agents to the cistern, which can corrode the flushing mechanism. Vitra Fresh is currently only available in WCs in the M-Line series.

- 1 The detergent tank sits on top of the WC pan and stores and mixes liquid detergent\* with flushing water for maximum hygiene
- 2 Vitra Fresh not only emits the pleasant scent of your detergent but provides superior hygiene and sanitation with every flush
- 3 The removable lid enables easy cleaning and refill

\*The liquid detergent dispenser is safe to use with most commercially available non-abrasive toilet cleaning liquids which include hypochlorous cleaning agents and bleach of up to 12.5 pH.

WC PAN WITH LIQUID CLEANING TANK PROVIDES MAXIMUM HYGIENE AND A FRESH SCENT WITH EVERY FLUSH

# CASE STUDIES

## CREATIVE SOLUTION PARTNER

Competent and cost-effective, Vitra is a highly sought after solution partner for architects, engineers and developers involved in prestigious projects across the world.

### AIRPORT: HEATHROW – TERMINALS 2, 3 AND 5

Location: London, UK | Architect: Richard Rogers | Contractor: Mansell

The largest construction project in Europe at the time, Heathrow's Terminal 5 is an innovative and extremely complex multi-modal transport interchange that creates a new terminal building and satellite on a site covering some 250 hectares.

The complex is designed to meet the challenges of the 21st century and handle up to 36 million passengers transiting through each year.

The design specifications of Terminal 5 resulted in a number of awards being granted which included but are not limited to the following:

- 2014 Skytrax World's Best Terminal
- 2013 Skytrax World's Best Terminal
- 2008 RIBA London Award
- 2008 RIBA National Award

As such, the design requirements for the sanitaryware throughout the terminal demanded that all washroom facilities should not only meet but surpass the then current Part M Regulations and Design Disabilities Act 2004. With over 50 WC facilities throughout the terminal, all needing to meet strict design, accessibility and durability criteria, a new approach to the washroom specification was required. As there were no products on the market at the time that met this design requirement, BAA Design approached Vitra UK Ltd, this partnership led to the creation of the Arkitekt range.

## THE COMPLEX IS DESIGNED TO MEET THE CHALLENGES OF THE 21ST CENTURY AND HANDLE UP TO 36 MILLION PASSENGERS TRANSITING THROUGH EACH YEAR

The Arkitekt range of hand basins then known as the "K" Basins 4418, 4327 and 4249 were created along with the Matrix WC – a special fully back-to-wall pan designed specifically to meet the requirements of BAA's specifications. The Matrix WC was designed with a 750mm projection and the rim sits 460mm from floor level, thus giving a perfect transition height from wheelchair to WC.

Vitra also partnered with Dart Valley Systems to create a bespoke range of urinals and brassware to complete the range. The design of the urinals comprises a unique flushing system created using the Dart Valley flushing valve. Each urinal houses its own flush valve, thus enabling each individual unit to be isolated using its unique fixation system, which enables maintenance work to be carried out without interrupting the use of the remaining urinals.

To ensure ease of maintenance the urinals were designed with two fixing points, one on each side. Once these are removed the urinal pivots on a bracket which is fixed at the base while a chain attached to the wall and urinal allows the urinal to pivot on a bracket whilst carrying its own weight.

The Arkitekt range was so successful that it is now part of the Vitra portfolio.

Following the success of Terminal 5, Vitra are now the first choice for the BAA Heathrow Estates projects, supplying to all terminals and offices under BAA's control on an ongoing basis. Work has since been completed in Terminals 2 and 3.

Vitra UK Ltd partnered with contractor Crown House Engineering (Laing O'Rourke Group) and architects Pascall + Watson for this prestigious project to create public washrooms with a 200 person capacity that could handle over 20 million passengers a year transiting through the facilities.

These projects clearly show Vitra has the experience, flexibility and resources to create original products that are aesthetically unique and sustainable, while meeting high specification requirements on a grand scale without compromising the quality Vitra is best known for.

## RESIDENTIAL: THE ANCHOR GROUP

Location: Nationwide | Contractors: Midas, Willmott Dixon, Bouygues, Castleoak, Ilec Imec, Heatcare

Photograph source: anchor.org.uk

The Anchor Group is England's largest not-for-profit provider of housing and care for the over-55s. They provide services to more than 40,000 older people.

Their passion is providing a choice of great places and ways to live. They achieve this by treating their colleagues and customers as individuals and building meaningful, long-term relationships based on happiness, openness and respect. This award winning care provider prides itself on creating a community environment, embracing diversity and utilising modern technology in all of its 100-200 bed care homes and villages.

To complete the build of Anchor's homes and villages, the designers Devon Interiors needed a comprehensive range of bathroom products that

enabled them to create both accessible and standard bathroom designs that reflected contemporary styling with excellent functionality. The S20 range from Vitra provided the perfect solution, offering modern angular styling across both standard and accessible options.

A selection of S20 standard and short projection WCs were used alongside Options Geo countertop basins, and where required accessible WCs and basins were installed. Since the launch into the UK, Vitra wall-hung frames and Loop O flush plates have been added to the specification enabling Vitra to offer the complete solution for the bathroom.

## HOTEL: INTERCONTINENTAL LONDON – THE O2

Location: London, UK | Pod Manufacturer: Offsite Solutions | Contractor: Balfour Beatty

Photograph source: ihg.com

Vitra are very pleased to be supplier of basins and WCs to pod manufacturer, Offsite Solutions and contractor Balfour Beatty for the new InterContinental® London - The O2, operated and managed by Arora Hotels.

The 453 bedroom hotel opened in Winter 2015 on the Greenwich Peninsula, the 18-storey hotel is in a prime spot to service approximately 7.5 million visitors per year to neighbouring arena, The O2, and will host events from major conferences to award ceremonies.

With the stakes set high, this impressive luxury hotel required interior fittings with mass appeal and a high-end look, whilst offering unbeatable durability. A range of Vitra WCs and washbasins were supplied to meet this criteria for each of the 453 rooms.

## RETAIL: MARKS & SPENCER

Location: Nationwide | Architect: Lewis Hickey Architects

Marks & Spencer are one of the UK's leading retailers with 914 stores, including 222 owned and 349 franchised Simply Food stores.

Corporate social responsibility is at the forefront of their business, using initiatives such as their Plan A scheme to make a positive difference globally through sustainable sourcing and conserving energy. Similarly, Vitra's Blue Life initiative means reducing the use of non-renewable energy resources and making significant investment towards boosting eco-efficiency.

So it seemed fitting when Paul Brackstone, Global Store Design Director for M&S and Lewis Hickey Architects were planning bathroom facilities for the mainline stores in the UK, for them to partner with Vitra UK.

Most recently a full suite of Vitra's Matrix back-to-wall WCs and Arkitekt urinals, paired with a selection of wall-hung basins have been supplied to the mainline stores.

The Matrix back-to-wall WC was selected for its clean design within the robust nature of the accessible environment. With its classic angular forms and rounded contours it allows endless possibilities to come together, making it an ideal product for a commercial project.

The relationship between M&S and Vitra has been long standing, with Vitra supplying over 100 Matrix pans to the multi-national retailer. Future plans include looking into store refurbishments using the M-line range. The wall-hung WC has the added benefit of a concealed cistern and includes Rim-ex technology, where the rimless bowl eliminates the areas germs can gather and multiply resulting in easier cleaning; an essential feature in high traffic areas.

## Blue Life

For our blue planet...

### A PLEDGE TO THE FUTURE

Blue Life is the production approach, design, attitude and management outlook of all Eczacıbaşı Building Products Division brands including VitrA.

- Blue Life means reducing the use of non-renewable resources in the production process.
- Blue Life means developing products that promote power and resource conservation at the end-user level driven by a concern for the environment and for our collective future.
- Blue Life means making significant investments towards boosting eco-efficiency.
- VitrA believe managing the future requires efficient management of our resources today; good design also means taking responsibility for resource conservation.

#### PRODUCT CERTIFICATES

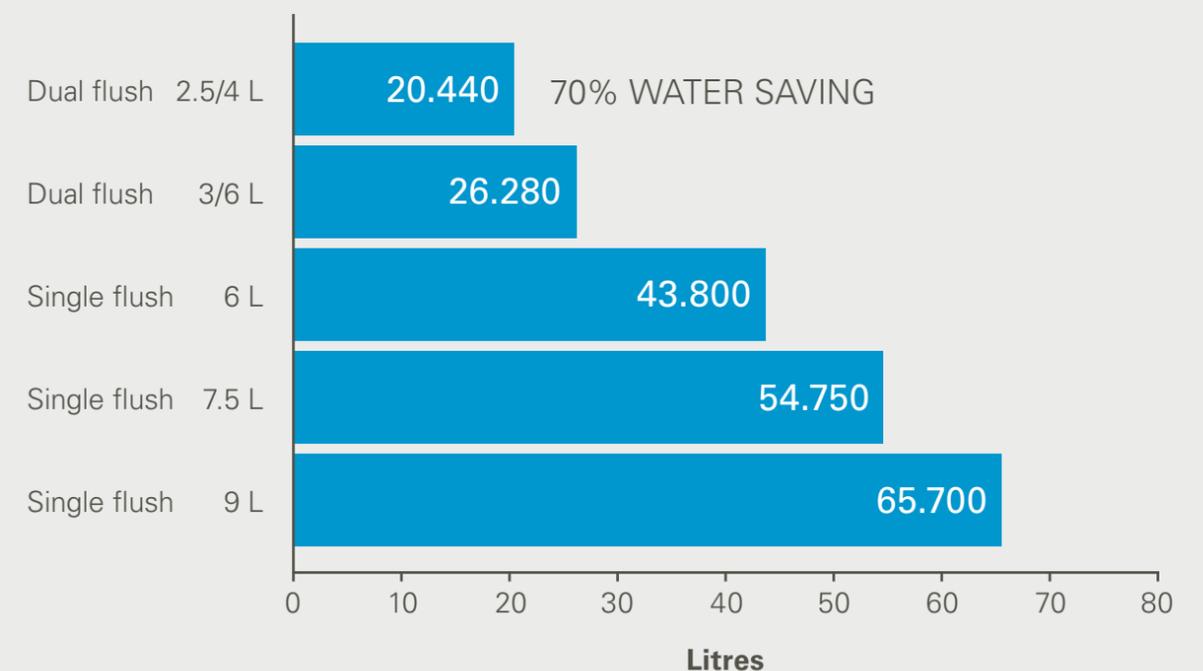

#### PRODUCTION CERTIFICATES

ISO 9001 Quality Certification / ISO 14001 Environmental Certificate / ISO 50001 Energy Management System Certificate / OHSAS 18001 Occupational Health and Safety Management System Certificate

### YOUR CONTRIBUTION TO SAVING WATER

VitrA's products are developed and designed in line with our Blue Life philosophy, and reflect our commitment to preserving and recycling natural resources.

#### WATER SAVING RATE FOR WC PANS PER YEAR:

Figures based on 4 people each flushing 5 times per day

**IF 250 WC PANS WERE CHANGED FROM A 9 LITRE TO A 2.5/4 LITRE CISTERN, ENOUGH WATER WOULD BE SAVED TO FILL 3 OLYMPIC SIZED SWIMMING POOLS**

#### WATER SAVING

All VitrA concealed cisterns are equipped with fill valves and by adjusting the gauge, it is possible to operate the cistern with 2.5/4 litre or 3/6 litre flow performance.

#### WRAS

All VitrA products with WRAS approval mean they comply with the Water Supply (Water Fittings) Regulations or Scottish Byelaws.

## ICON GUIDE

### WATER SAVING

VitrA water saving WCs, marked with this symbol, have a special bowl structure and are specifically designed to flush with both lower (2.5/4 litre) and typical (3/6 litre) water volumes. By using less water, whilst still delivering efficient flushing, these water saving WCs benefit you and the environment. All VitrA standard height wall-hung frames come with dual flushing function as standard in both 2.5/4 litre and 3/6 litre options.

### SPACE SAVING

A wall-hung WC takes up less room than a conventional WC, and the concealed installation offers flexibility in confined spaces. The range of compact WCs have shorter projection, saving even more space.

### ACCESSIBLE

These products are wheelchair accessible and provide enhanced convenience in the bathroom.

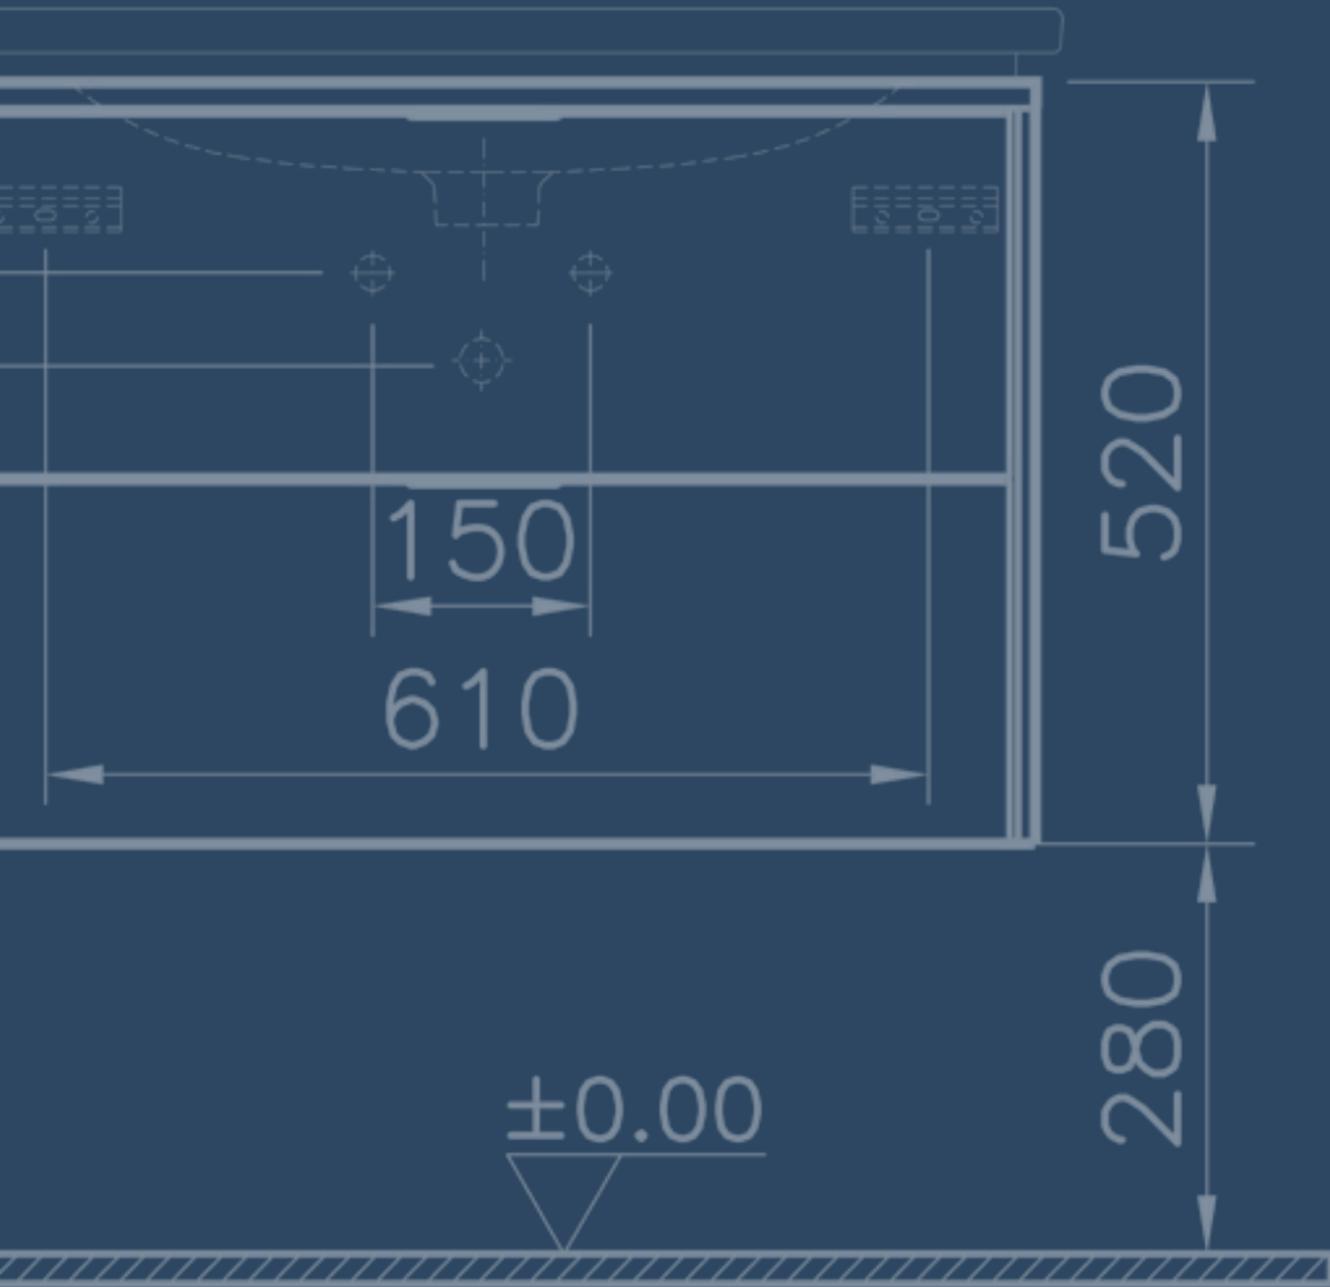

### RIM-EX TECHNOLOGY

Offering effortless cleaning and innovative, hygienic design. VitrA's rimless WC pan eliminates the areas where germs gather and multiply, giving a superior level of hygiene.

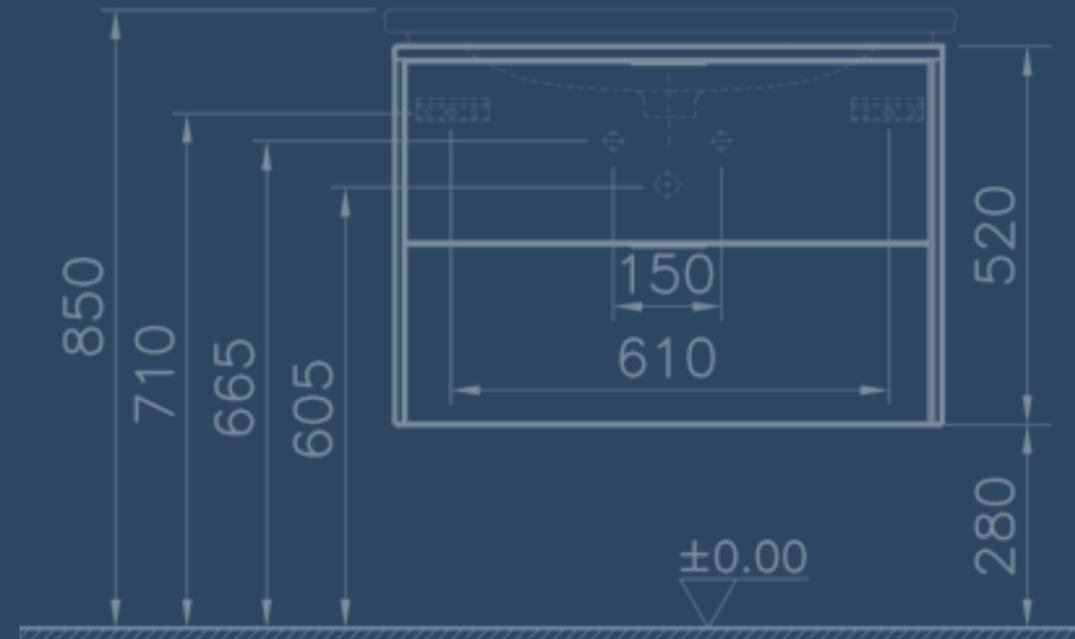

### WRAS

The purpose of WRAS is to contribute to the protection of public health by preventing contamination of public water supplies and encouraging the efficient use of water by promoting and facilitating compliance with the Water Supply (Water Fittings) Regulations and Scottish Water Byelaws.

# WC PANS

A comprehensive range of WCs including wall-hung and rimless designs form the core of this collection. The V-care shower toilet and Vitra Fresh also offer something special for those projects that need something just a little bit different.

5671 Wall-hung WC pan, short-projection, 48cm  
90-003-009 Toilet seat, soft closing

# V-CARE

The new generation of shower toilet from Vitra. The functionality of a toilet with the cleaning properties of a bidet, combined in one unit to offer increased cleanliness, hygiene and comfort.

V-care offers state-of-the-art features including a selection of wash options, adjustable seat and water temperature, drying options and an automatic open/close seat cover\* mechanism. The typically stylish design will also blend well with most of our bathroom ranges.

For more information about available products please see technical section page 137.

WATERSMART	72
WATERLESS	73
SYPHONIC	74
STANDARD	153

# URINALS

VitrA offers a selection of urinals, all suitable for commercial use. Both concealed or exposed options are available with minimalistic styling.

5461 Syphonic urinal, back water inlet  
311-2911 Mains operated electronic urinal flusher, matt chrome

# WATERSMART

VitrA introduces the first cartridge and splash free urinal. Watersmart urinals are developed with the environment and water conservation in mind.

Compared to standard, these ultra-low water consumption urinals enable significant water saving. There are two versions of watersmart urinals, using a minimum amount of water when flushing:

- Automatic flushing urinals
- Flushing function with timer

**Automatic flushing urinals** – flushing frequencies are pre-programmed according to usage and can be either mains or battery operated.

**Flushing function with timer** – the flushing frequency can be set to certain time intervals and can be either mains or battery operated.

A standard urinal can be replaced easily with a watersmart urinal without any additional installation requirements.

For more information about available products please see technical section page 153.

Left:  
4339 Watersmart urinal,  
mains operated with timer

Opposite:  
5419 Waterless urinal

# WATERLESS

VitrA now offers a waterless urinal with a new velocity cartridge. Other cartridges create splash back and dirt build up in the pipework. The new velocity cartridge removes the build up and works in both horizontal and vertical pipework.

It has an anti-splash pour spout which speeds up flow, reducing build up. This new velocity cartridge saves time and money and makes cleaning easier.

In addition to the water saving feature, the waterless urinal does not require any power; thanks to the new mechanical system, making it more environmentally friendly.

VITRA'S PRACTICAL  
EASY-TO-CLEAN URINALS  
ARE PERFECT FOR  
PUBLIC BATHROOMS

Opposite and below:

# FRAMES & FLUSH PLATES

Concealed behind a solid or stud wall, Vitra's frame systems are crucial to any modern bathroom, supporting and holding wall-hung WCs firmly in place. Vitra's frames allow your bathroom designer the freedom to create a stunning room without the need for expensive structural building work.

7748 Sento wall-hung WC pan, Rim-ex

\*Flush plates require a Vitra frame

## WALL-HUNG FRAMES

Both the slim and regular sized frames can be used in solid wall, stud wall and double stud wall scenarios, and are all available with a choice of flushing volumes.

The reduced height frame is perfect for under a window.

Whatever your project needs, the range of Vitra wall-hung frames offers you complete flexibility.

VITRA'S FLUSH PLATE DESIGNS  
HAVE BEEN DEVELOPED WITH  
INDIVIDUALITY IN MIND

## FLUSH PLATES

With a Vitra wall-hung frame, only the flush plate is visible; two buttons that release either a large or small quantity of water.

Vitra offers a wide range of design solutions, with different finishes and shapes, giving you the freedom to create the bathroom you've always wanted.

For this reason, whether it's a mechanical, pneumatic or electronic panel system required, Vitra has a flush plate and frame to suit.

Most Vitra flush plate designs feature an anti-fingerprint finish. This finish is extra hygienic, as it is easier to clean and protects against bacteria.

# BATHS

VitrA baths are made from high-grade acrylic with a superb finish. Each bath features a minimum of 5 adjustable feet, a fully encapsulated wooden baseboard and frame, and an advanced wall fixing kit, keeping the bath tightly in place and ensuring stability with no creaking or bowing. All baths carry a 25 year guarantee and panels a 2 year guarantee.

# BRASSWARE & ACCESSORIES

Designed and manufactured specifically for the UK market, and to meet the requirements of varying UK water pressure, the brassware is incredibly easy to install. The main body of each item is of brass construction, and this durability is underpinned by the reassurance of a 5 year guarantee on chrome plating and a 1 year guarantee on moving parts.

## BRASSWARE | AQUATECH

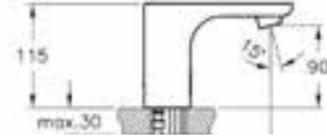

**PRODUCT CODE:**  
A47060

**PRODUCT DESCRIPTION:**  
Infrared controlled basin mixer  
(mains)

**WEIGHT (KG):** 2.6

**REC. MINIMUM PRESSURE:**  
0.5 bar

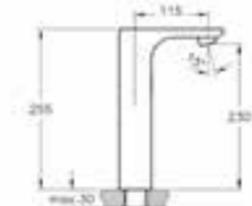

**PRODUCT CODE:**
