

GSI®

Collection 2021

Italian Design. Italian Made.

Prices are RRP inclusive of VAT (non binding)

Italian Design. Italian Made.

Designed and made in Italy, GSI Ceramica offers the highest quality sanitaryware for contemporary living. Expertly crafted using the latest technology, all GSI products feature pristine profiles and smooth surfaces thanks to the exclusive Antibacterial Extraglaze® treatment for enduring good looks. GSI's five distinctive ranges come with dedicated storage solutions, providing homeowners and designers with pure Italian design inspiration for their bathroom projects.

Based in Civita Castellana at the heart of Italy's ceramic tradition, GSI Ceramica has cleverly balanced traditional craftsmanship with leading edge technical innovations since the 1930's. This approach to production enables the company to offer clean and beautiful designs at the highest quality standards.

Today, GSI Ceramica is a leader in sanitaryware production and a global brand sold in over 50 countries worldwide. The company's commitment to research and development and its strong focus on innovation result in the most advanced and well designed products for the bathroom, all Made in Italy.

Manufacturing

Manual ability and automation, craftsmanship and technology.

GSI products are the result of a complex development process which harnesses the latest 3D system technology in every phase of design and prototyping. This is followed by a high pressure production method, automated enamelling and setting in a kiln running at 1250 °C. The entire process is supervised in detail by qualified staff who carry out constant quality checking. Each phase of production, and every item produced, is tested against a strict quality control system conforming to the latest European standards.

Technical, functional and aesthetic requirements form a selected system of products which allow GSI ceramics to only offer its clientele products that are of high level quality endowed with the certified document CE. Over the last few years, the company has invested in the latest generation production plants; high pressure casting systems which are the most innovative and efficient in the sector. This latest technology, allows a quality improvement and also grants a strict supervision throughout the entire production phase, considerably raising the qualitative standards of the finished product.

Adler Mountain Lodge, Alpe di Siusi

Projects

GSI's ceramic collections demonstrate beautiful Italian design and high quality at some of the most impressive buildings around the world.

Kempinski palm Hotel Dubai

Madinat Jumeirah in Dubai

Tiara Chateau Hotel in Paris

Grand Hyatt Hotel in Dubai

Quality without compromise

The quality of GSI ceramics enables us to offer a 10 year warranty.

*2 Year warranty on seats.

swirlflush®

The innovative rimless system optimises flush performance, hygiene and ease of cleaning.

extraglazeantibacterial

Certified ISO 22196
99.99% antibacterial

With Extraglaze® antibacterial, GSI combines the properties of Extraglaze® anti-scale enamel with the antibacterial strength of Silver and Titanium, ensuring antibacterial action complying with standard ISO 22196.

This new sanitaryware glaze serves a dual purpose: to minimize the unevenness of ceramic surfaces and make them more hygienic. This new technology prevents limescale deposition, makes ceramic surfaces brighter, facilitates routine cleaning and reduces the bacterial load by 99.99%.

All GSI products are subject to load testing according to the industry regulations.

softclose

The soft-close system ensures that the toilet seat does not drop accidentally when closing to avoid accidental damage.

quickrelease

The new "Quick Release" mechanism for easy cleaning allows for removal of the toilet seat in a simple way and without the aid of any tools.

silent

The new rinse system minimises noise during flushing.

save water

All GSI toilets guarantee optimal flushing with only 4.5 litres of water.

GSI's constant drive to improve the quality of the bathroom environment has resulted in the launch of the revolutionary rimless flushing system, SwirlFlush®. Available in all ranges.

The most evident characteristic is the absence of the rim, inside of which in a normal WC, the water circulates while flushing. The particular shape of the SwirlFlush® system leads the water on the ceramic surfaces in a uniform manner, ensuring optimum cleaning and an improved flushing performance. The SwirlFlush® WC design also facilitates the normal operations of cleaning the sanitaryware, since it does not present any hidden parts or parts that are difficult to reach. This combined with the Antibacterial ExtraGlaze® treatment, makes surfaces extremely polished and smooth, guaranteeing hygiene with minimum effort.

quickrelease

extraglazeantibacterial

Certified ISO 22196
99.99% antibacterial

GSI ceramica introduces a new antibacterial soft close seat & cover with an innovative installation system. Available as standard for all WCs.

The new "Quick Release" system is distinguished by the simplicity with which it allows the seat & cover to be pulled out without the use of any kind of tool. Simply pull the seat & cover up using a sufficient force for its removal. This will make it possible to clean the toilet seat and even the WC in areas that are usually difficult to reach, improving hygiene. Repositioning the seat & cover is as simple; once placed on the hinges, it will be sufficient to employ relatively weak pressure. In conjunction with the soft-close system, the GSI seat & cover reaches levels of efficiency and comfort never reached before. The soft-close system will prevent accidental falls and violent closures of the seat & cover, preventing damage.

softclose

extraglazeantibacterial

Certified ISO 22196
99.99% antibacterial

With Extraglaze® antibacterial, GSI combines the properties of Extraglaze® anti-scale enamel with the antibacterial strength of Silver and Titanium, ensuring antibacterial action complying with standard ISO 22196.

This new sanitaryware glaze serves a dual purpose: to minimize the unevenness of ceramic surfaces and make them more hygienic.

This new technology prevents limescale deposition, makes ceramic surfaces brighter, facilitates routine cleaning and reduces the bacterial load by 99.99%.

Extraglaze® antibacterial represents the latest goal achieved by GSI in innovation and research, in order to provide the highest quality within its products.

Extraglaze® antibacterial is a new ceramic glaze which by minimizing the formation of surface pores, makes the ceramic surfaces smoother, brighter and easily washable.

Extraglaze® antibacterial is applied to the products during the production cycle and prior to their firing. In this way, the new enamel is an integral part of the ceramic and its permanent effects. The result is extremely smooth, shiny and long lasting ceramic surfaces.

The products treated with the Extraglaze® antibacterial are more resistant to chemicals, and thanks to the extreme smoothness and brightness, they are protected from bacteria and limestone and stay clean longer.

The Extraglaze® antibacterial properties reflect positively on environmental sustainability thanks to the use of a reduced amount of detergent and water during the cleaning routine operations.

Furniture Finishes

GSI's dedicated furniture collections add practical storage and contribute to a stylish bathroom design. Don't compromise on your bathroom colour preference, choose from our huge selection of colour finishes to harmonise and contrast with numerous colour schemes.

GSI offers one of the widest ranges of furniture finishes from a bathroom furniture company. Our talented team of experts have selected a palette of on trend colour finishes across our 8 furniture collections. The new GSI Design collections feature sophisticated finishes in addition to our existing colour finishes that complement any contemporary bathroom. All GSI furniture collections are available in all GSI Standard, GSI Design and special finishes (excluding Sand matt lacquer finishes). More GSI colours open up the bathroom design possibilities.

We recognise that colour schemes play a key role in creating a personalised bathroom space. If you can't find a suitable finish from our GSI Standard or Design colour range, choose from our selection of over 130 special finishes to colour match your bathroom surfaces.

For the total look, matching wall cabinets and bath panels are available in the same finishes as basin units. Matching mirrors are available for the Sand & Classic collections. Standard mirrors are available for all collections.

DESIGN TALL WALL CABINET
special finish metal wood black

Kube X

Kube X emerged out of a contemporary trend to develop rectangular forms with pared down lines and slender edges. The shorter projections make Kube X washbasins perfect for small spaces and minimalist looks. From the larger sizes down to the smallest, the collection offers square washbasins with many installation options: wall hung, on a countertop or with Kube X Design or Kube furniture. The collection also includes elegant round and rectangular vanity basins.

Kube X WCs have an angular shape to complement the sharp lines of the washbasins. WCs feature the revolutionary Swirlflush® technology and a sleek rimless design to maximise hygiene and improve flush performance.

Pura

The Pura collection skilfully balances straight lines with soft shapes. This understated elegance exudes a touch of luxury that fits perfectly with GSI's design philosophy: simple but tasteful.

Pura offers a wide range of washbasins suitable for wall hung, countertop or under-mounted installation, all featuring a generous bowl size and overflow.

The Pura collection also features WCs with the revolutionary Swirlflush® technology and a sleek rimless design to maximise hygiene and improve flush performance.

Norm

With simple lines and sharp edges, Norm is the perfect design for a minimalistic style.

Offering a wide choice of basin sizes, from the space saving Norm 35 to the imposing proportions of Norm 125 double basin, this stunning collection can be customised to suit a wide variety of spaces and requirements, and all basins come with dedicated storage units.

The Norm collection also features WCs with the revolutionary Swirlflush® technology and a sleek rimless design to maximise hygiene and improve flush performance.

*We recommend Viega
Cisterns, WC frames and
flush plates.*

Sand

Sand is characterised by a strong design statement. Taking inspiration from deserted sandy beaches and the flow of water, the Sand collection features sinuous, enveloping and soft shapes coupled with functionality and individuality. From the striking look of the freestanding Sand washbasin, to the graceful and soft forms of the vanity basins, Sand is destined to become the focal point in any bathroom.

The Sand collection also features WCs with the revolutionary Swirlflush® technology and a sleek rimless design to maximise hygiene and improve flush performance.

Classic

The Classic collection features traditional design at its best.

Inspired by the Neoclassical style, these timeless designs are able to recreate a traditional atmosphere in a contemporary environment.

A bespoke range of furniture has been especially designed to enhance the beauty of the sanitary ware. Available in two sophisticated colours - Espresso and Mink – both colour versions are available in oak furniture featuring drawers with a gloss finish.

COMMUNITY BASIN
gloss white

COMMUNITY WC
gloss white

Community

Community is GSI Ceramic's proposal for public or collective bathroom environments. This is a line of sanitary ware that guarantees comfort in terms of design and usage possibilities.

Community also includes a line for differently abled people: the washbasin 70 answers especially to the need to provide service solutions and may be combined with the extended wall hung WC to allow easy access for the less abled.

The products are covered with Extraglaze Antibacterial glaze, a special finishing with silver and titanium ions that reduces bacteria counts by 99.99%.

We recommend Viega
Cisterns, WC frames and
flush plates.

About our furniture

GSI furniture is manufactured in the UK following strict manufacturing standards and using high quality materials. Dedicated designs for each of the GSI ceramics ranges provide a comprehensive furniture offering, all in a range of on-trend finishes in wood grain and gloss. GSI furniture comes with a 5 year warranty. Our

18mm high specification cabinets are assembled using traditional glue and dowel construction, with no visible metal cam fixings. They all feature strong drawers with soft-close function and where indicated door units offer the option of left and right hand opening.

Terms in brief:

Ceramic products are designed and made in Italy and come with a 10 years warranty. The furniture range is specially designed for GSI and is manufactured in the UK. All products must be properly checked prior to installation. GSI will not accept any claim for installation if a defective product is installed. We advise you not to confirm your installation date until full receipt of your order.

All goods must be examined before signing delivery notes. The contents of any package must be examined and checked on receipt. No claims can be entertained for shortages or damages after delivery.

We reserve the right to change details, prices or specifications without prior notice.

Every effort has been made to ensure the accuracy of information in this brochure, but all dimensions are given for your convenience and should only be used as a guide.

Colour reproduction is as accurate as current printing methods allow. Please refer to colour samples available in the showroom before ordering.

All prices shown are RRP inclusive of VAT (non binding).

Full terms and conditions are available upon request.
