**BETTE**

Fill your life with  
inspiration.  
**Baths, shower trays and  
washbasins made of  
glazed titanium steel.**

# Made of titanium steel, glass, and the liberty of rethinking things.

Since 1952, we have been making high-quality bathroom elements out of glazed titanium steel here in Delbrück. This all-natural material is not only the fabric, but also the origin of our ideas. We love experimenting and blazing our own trail.

With our special deep-drawing and enamelling processes, we are constantly redefining the limits of what is feasible. From the first floor-level shower area to the radical minimisation of the bath and washbasin rim to the maximum radius of a circular bath. This is how sensuous objects with history and character are created. And along with perfect functionality and reliability, they will also provide you with aesthetics, relaxation and comfort. Every day. For at least 30 years. We guarantee it.\*

We would like to inspire you with our Lookbook, to encourage and entice you to venture to try more. Because we believe in your bathroom.

# BetteLux Shape

12

**Almost floating—**Powder-coated steel frames support the **BetteLux Shape** baths and washbasins as though they are weightless. The frames emphasise the full beauty of the organic bath design. A specially designed overflow, together with other sophisticated details—such as the precise corners of the bath forming a flush finish with the edge of the frame—reinforce the idea of perfect minimalism.

BetteLux Oval Couture Design: Tesseraux+Partner

**Steel can wear anything—The BetteLux Oval Couture line elevates the bathroom fitting to a lifestyle object.** The first fabric-coated baths and washbasins bring comfort into the bathroom and bathroom comfort into your home. The body of these baths and washbasins is manufactured conventionally from enamelled titanium steel, yet the surround is made from woven waterproof and climate-resistant fabric. The unique advantages of enamelled titanium steel are elegantly fused with the feel of fabric and a cosy look.

**Expressive geometric lines**—The BetteLoft collection is based on the fundamental design of four tapered surfaces that meet up together. Precise contours form the perfect frame for the voluminous interiors of these baths and washbasins. Perfect craftsmanship and an extremely small corner radius underline the expressive character of this minimalistic design.

## BetteLoft Ornament

BetteLoft Ornament Design: Tesseraux+Partner

Comfort with a distinctive design—The BetteLoft Ornament line of baths and washbasins is the perfect expression of titanium steel's outstanding versatility. Its expressive outer design accentuates the straight lines of the inner well, which are echoed in the geometric pattern. The fascinating interaction between light and shadow lends this bathroom collection outstanding luminosity and vibrancy.

A statement of purism—The baths and washbasins in the **BetteArt** collection bring a sculptural effect to the room. The shapes of the inner and outer walls have been skilfully fused together to create a seamless design with extremely narrow sides. This results in highly symmetrical designs with soft lines, creating a special ambience in any bathroom.

**Flexibility and charisma** – The BetteSpace combines desire and reality. Its modular trapezoid shape has a wide back angle, and tapers towards the foot end. Thus it introduces linearity and maximum comfort into any size of bathroom. The puristic space-saving bath is available in three versions: as the single bath – BetteSpace S, as the BetteSpace M – shower/bath with a comfortable standing area, and as the duo bath BetteSpace L, with room for two bathers to sit side by side.

As soft as porcelain, as hard as steel – The combination of clear design language and filigree materiality gives the **BetteCraft** washbasin an elegant self-evidence. Every shell is hand-made individually from titanium steel in an extensive process, first shaped and then glazed on both the inside and outside. The thin side walls that taper towards the top give the generous shape a delicate and organic effect.

Made in

Glazed titanium-steel—We achieve the special evenness of our bathtubs, shower surfaces and washbasins using a wet-in-wet enamelling technique we've been perfecting for decades. The procedure permanently binds three ultra-thin layers of our special enamelling formula to the titanium-steel carcass in two firing steps at 850 °Celsius. The purely natural material created thereby unites the freedom of form granted by steel with the optical, haptic and hygienic properties of glass. Its vast internal flexibility ensures the reliability and durability of Bette products.
