THE PERFECT CHOICE FOR YOUR HOME

BRASSWARE IS OUR SPECIALITY

At **VADO** we believe in turning the ordinary into the extraordinary. Our products are beautifully designed for those looking to make a statement with their brassware and expertly engineered to keep up with the demands of modern bathroom living.

Our carefully curated portfolio ensures we have a collection to suit everyone's tastes; from traditional choices right through to contemporary, with a range of finishes inspired by trends, but always remaining timeless in design.

In addition, we are leading the way in new bathroom technology, whilst **providing innovative solutions to water and energy sustainability.**

Our products have been designed with you in mind and are harmonious with all sanitaryware, allowing you to add a personal touch to reflect your own style. So when you choose **VADO**, your choice of coordinating items is unlimited - with **VADO** you can really **let your inspiration flow**.

For extra reassurance, when you choose a **VADO** product, you are getting the very best of British design and exceptional quality.

- 15 year guarantee
- Tested to industry leading standards
- Fitted with the best European components
- Low pressure operation at 0.2 bar

HOME COMPATIBILITY

Our products work in conjunction with all household plumbing systems for easy installation.

Throughout this brochure, we have highlighted which products work best with either a low, medium or high water pressure system. Just look out for:

LP (Low Pressure, 0.2 - 0.5 bar)

MP (Medium Pressure, 1 - 1.5 bar)

HP (High Pressure, 3 bar)

If you need help identifying your pressure, our team of experts in our Aftersales and Product Support Team can be contacted, on the number in the front of this catalogue, to answer any questions you may have.

THE UK WILL SEE EXTREME WATER SHORTAGES IF WE DON'T **ACT NOW**

By making small changes, we can all **save water**
and make a real difference together.

Did you know that the UK water supply is under significant pressure to meet with our ever-growing water needs? With our population estimated to grow by a further 5 million people in the next 20 years and our personal daily usage almost doubling in the last 5 decades to 143 litres, **the UK will need approximately 3435 million litres of additional water by 2050.**

“TODAY THE SOUTH EAST OF ENGLAND HAS LESS WATER AVAILABLE PER HEAD THAN THE DESERT STATES OF SYRIA AND SUDAN” *The Environment Agency*

Recent research suggests only **1 in 10** of us see water consumption as a key environmental consideration, yet in current times, over **80%** of us appreciate access to clean water to wash our hands.

IF WE ACT NOW AND MAKE SMALL CHANGES, WE CAN PROTECT OUR WATER SUPPLY FOR YEARS TO COME...

The Government in conjunction with our industry body the **BMA** have targeted water consumption of **110 litres per person per day**. We at **VADO** believe this is achievable through small changes in our bathroom product choices and habits.

SAVE WATER WITHOUT COMPROMISE

VADO are proud to develop products that are beautifully designed, provide an indulgent user experience, whilst saving water and caring for our planet.

Look out for products with these labels **H₂ECO®** and **ECOturn®** to be confident you are fitting the best in water and energy-smart brassware, that will **provide immediate savings** in water and energy bills **without compromising performance**.

H₂ECO®

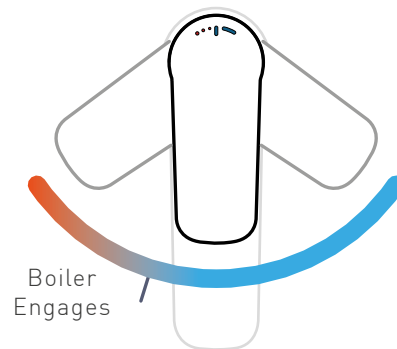

Many water saving products are fitted with a form of flow limiter that restricts water flow, regardless of the water pressure, resulting in a compromised performance.

We do not believe in anything less than perfect, that is why **VADO H₂ECO®** taps feature Honeycomb Air Flow regulators designed by industry leaders Neoperl, to **optimise water flow no matter the pressure**.

VADO eCOturn® products are designed to reduce the need to use hot water when it is not required, saving on hot water wastage, helping to **prolong the lifespan of the boiler** and ultimately **saving you money**...

VADO products with eCOturn® technology, have an increased cold-water area, allowing you to consciously choose when you want to use hot water by actively turning the lever. This means simple tasks that do not require hot water, such as brushing teeth, can be done **without unnecessarily engaging the boiler** and heating water that isn't needed.

†

Appropriate products from our portfolio are WRAS approved for additional reassurance and for your water safety. A WRAS approval, certified by the Water Regulations Advisory Scheme, is an easy way to demonstrate that a material or water fitting is of a suitable quality and standard.

LEADING COMPONENTRY FITTED AS STANDARD

We only fit the very best European components, to ensure our products stand the test of time, even in the busiest bathrooms:

BATHROOM PLANNING GUIDE

We know planning a bathroom renovation from scratch can be an overwhelming task, by using our bathroom planning guide we will lead you through the whole process step by step. From tiles to towels, you can feel confident you have thought of everything you need, even down to the smallest of details.

1. ASSESS YOUR BATHROOM NEEDS

It is a good idea to have a think about what you need from your bathroom and who will be using it. We recommend writing down a list of essential bathroom features, to give you a place to start. If you are sharing with a family, you may want to think about storage options for things such as toiletries, bath toys and towels. If you are renovating a master bathroom, decide on whether you would like a separate bath or shower, or even a shower over your bath to utilise your space.

Once you have identified your list of must-haves, you can take this with you to visit a showroom, to give them an idea of your requirements.

2. IDENTIFY YOUR WATER PRESSURE AND PLUMBING SYSTEM

Many taps and showers are often designed for specific water pressures and plumbing systems; therefore, it is important that you identify what you have in your home early on. By doing this, you will know exactly what products are suitable for your home, which narrows down your choices and avoids any disappointment or additional costs later in your renovation.

3. MEASURE YOUR SPACE AND CHOOSE A LAYOUT

Before delving into pages of inspiration on Pinterest or visiting a showroom, measure up your space so you know how much room you have play with! If you are short on space do not worry, this just makes it more fun thinking of smart ways to utilise the space available.

Once you have your measurements, you can decide on the layout. You can take a visit to a local showroom or head to our website to browse a range of bathroom layouts to spark some inspiration.

4. LET YOUR INSPIRATION FLOW

You may have lots of decor ideas already or none at all, either way this is where the fun starts! We recommend building a mood board starting with your chosen style, such as traditional, modern, timeless or something completely unique; by deciding your style first, this narrows down the choices of fittings, making it much easier for you to decide. From here you can build your mood board with your colour scheme, tile ideas, lighting, and accessories.

We recommend using Pinterest for your inspirational mood board, this way it is easily accessible on your phone and you will have it to hand to express your vision when visiting showrooms.

If you are looking for a place to start, visit our [VADO](#) Pinterest page or the [VADO](#) website for all the latest bathroom trend ideas and guides.

5. TILES AND LIGHTING

Tiles and lighting for your bathroom are something to be considered carefully, as they are both practical as well as trend focused and are important for setting the atmosphere of a bathroom.

If practicality is your main priority, spotlights could be the best option for you as they are bright, clean and do not use up lots of space; however, you may find some spotlights can be quite harsh and cold. If you are looking to create more of a haven of relaxation, then you may want to experiment with dimmer lighting as well as alcove lighting for a modern twist. These lighting options are usually much warmer.

6. STORAGE

Storage is key to having a clear and de-cluttered bathroom, helping to avoid having toiletries, towels, and additional bottles on display. Under sink storage is useful to store toothbrushes and essentials that are needed daily, as well as using mirrored cabinets on the wall to double up on functionality.

Once your layout has been decided you may also find small spaces which could be utilised for shelving, hidden units, or even heated towel rails. Being short on space does not mean short on storage!

7. FINALISE YOUR BUDGET

Finalising your budget before speaking to experts is important as this shows them what is in and out of scope for your bathroom scheme. This is particularly useful when choosing your key requirements as it will help to avoid any disappointment as well as eliminating the risk of going over budget.

When speaking to your tradespeople, we recommend highlighting essential features and allocating budget to these before choosing anything else, as well as cost of labour. This way all must-haves will be taken care of and everything else can be chosen with any left-over budget in mind.

8. SPEAK TO THE EXPERTS

Choosing the right tradespeople for the job is important, and the best price does not always equal best quality! Choosing companies or independent tradespeople who are experienced in fitting bathrooms is key and as they will be in your home for a few weeks or so, being trustworthy is essential. We recommend speaking with friends and family for their recommendations on previous jobs, as well as asking for quotes from multiple companies to compare services.

Take a visit to our website to find **VADO**'s top questions to ask tradespeople, ahead of booking.

9. PLAN AHEAD

In the excitement of planning a new bathroom, there is one tiny factor we all forget – what are you going to do whilst the work is being done?! Whether the job is going to take days or weeks to complete, we highly recommend planning and making alternate arrangements whilst the work is being carried out.

A few options could be using a neighbour's or close friend's bathroom whilst yours is out of use or taking a trip to your local gym to use the showering facilities may also be handy. You may as well even do a workout whilst you are there!

10. MAKE YOUR DREAM BATHROOM A REALITY

Our hand-selected **VADO** independent retailers are ready to help you **begin your water smart journey**.

We carefully select and train all of our **VADO** independent retailers to ensure you have the best experience when selecting your perfect bathroom.

Our stockists will not only help you to choose the right **VADO** taps and showering products to deliver you a great experience day in day out, they will also guide you in choosing the best coordinating sanitaryware and tiling options to create your dream bathroom.

FIND A STOCKIST

STEP 1:

Choose from one of our many bathroom brassware collections. We have a wide variety of styles to suit individual tastes.

STEP 2:

Find your local stockist. If you don't already know who your local stockist is, visit vado.com/stockists to find your local verified **VADO** independent retailer.

STEP 3:

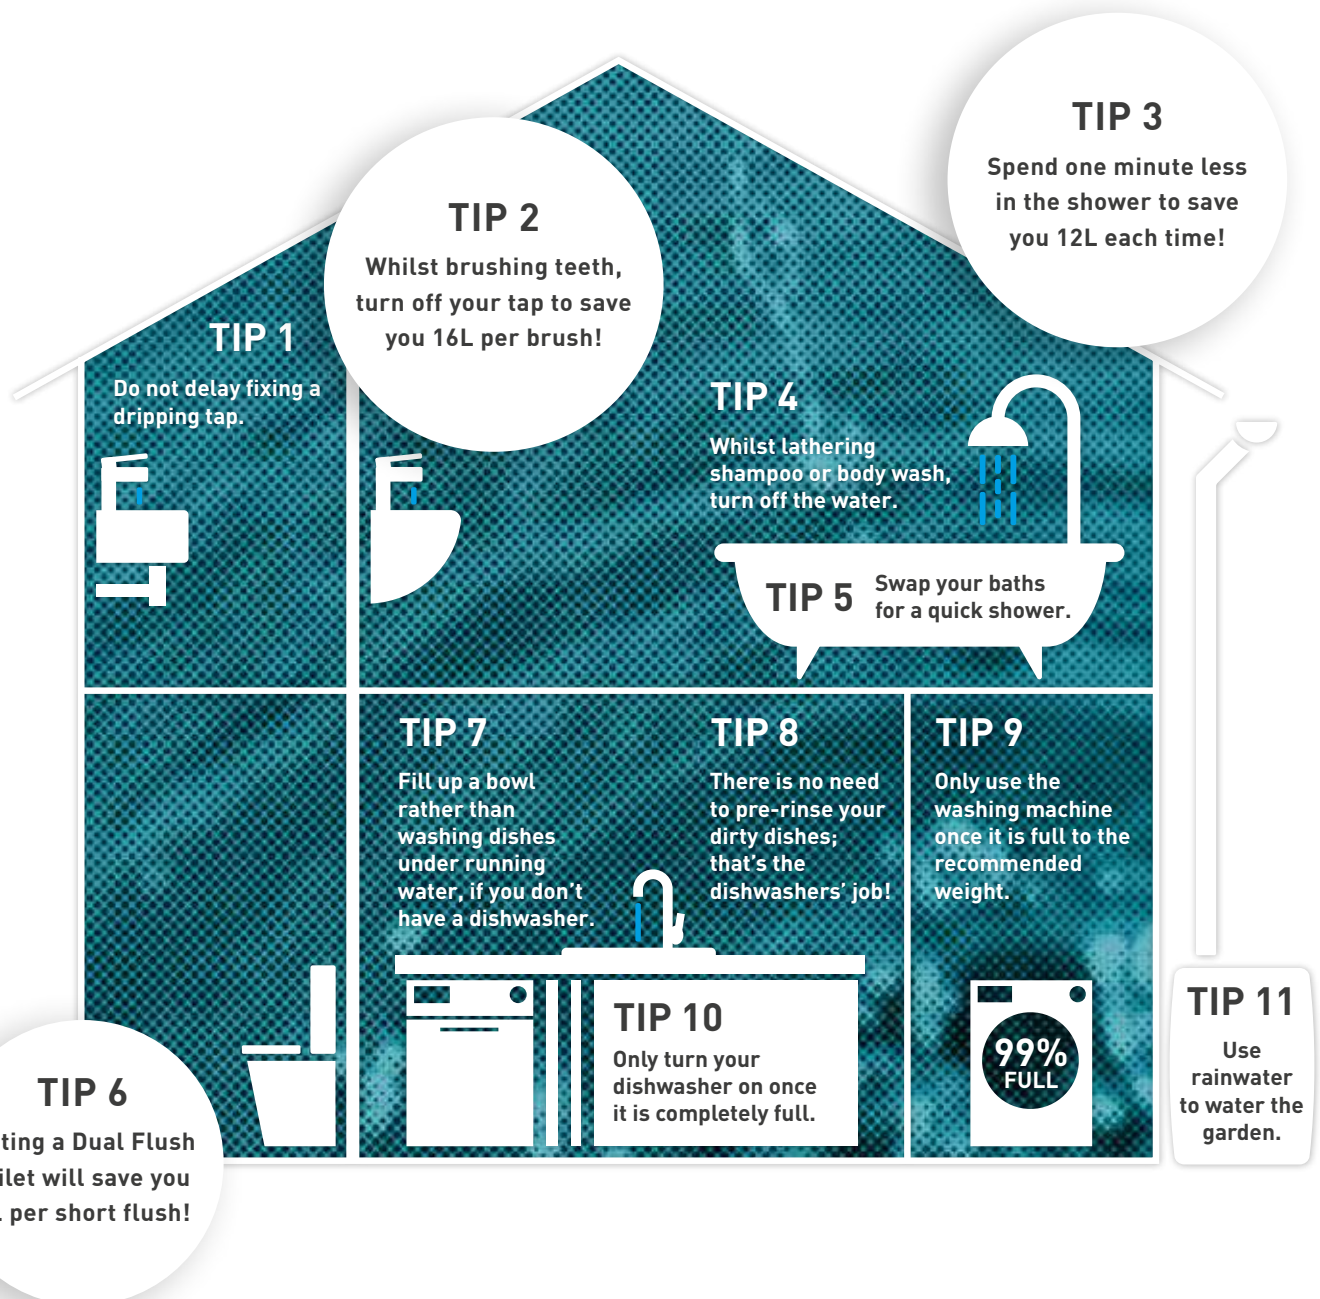

Visit your verified **VADO** independent retailer to discuss all of your bathroom design and installation requirements with a fully trained bathroom adviser.

STEP 4:

Reinvigorate yourself and your senses in your beautiful, new bathing space.

EVERY DROP MATTERS

In addition to our water and energy saving product offering, we have some more helpful hints and tips to help you start your journey to a water-smart life.

EXPERIENCE OUR PRODUCTS IN **FULL 3D**

STEP 1:

DOWNLOAD

VIV is available to download for free on the App Store and Google Play Store and works with all iOS and Android devices.

STEP 2:

Texture has always played an essential role in home interiors and is a trend that is here to stay; from plush textiles that create warmth and depth to raw and natural woodwork that brings an element of nature to your design scheme. Connecting our senses through touch can spark a multitude of emotions as well as evoking nostalgic memories.

GO BOLD WITH BRASSWARE

Textured brassware is currently dominating the world of bathroom trends, thanks to its artistic detailing and tactile element.

Create a statement with the diamond cut knurled detailing of Knurled Accents, or in complete contrast our Omika collection designed by Jo Love that embraces the soft geometric textures found in water, bringing the outside in.

EXPLORE TEXTURED TILES

Inspired by the texture movement within interior design, bathroom tiles come in a range of finishes that can subtly add interest and layers of dimension. One of **VADO**'s favourite trend focused designs is the Subway Lab tiles by Johnson Tiles. Inspired by modern architecture and form to create unique pieces of art on your bathroom walls.

Elements

LEVEL UP WITH ACCESSORIES

Accessories are a quick and budget friendly way to add an extra dimension to your bathroom. Bath linen is a great place to start by mix and matching different materials and tones. You could also store your towels in a woven basket or rattan storage; as well as introducing concrete textures with the use of soap dispensers and pots.

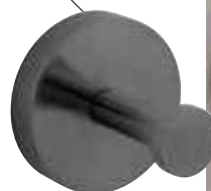

The small finishing touches to your bathroom are just as important as choosing your taps or shower, as they allow your personality and unique style to shine through. Try swapping your towel rails and robe hooks for our Brushed Knurled Accents accessories, with diamond cut knurled detailing to subtly add texture. For added dimension and colour, artwork is often overlooked for a bathroom but a great way to bring some life to your walls.

GET THE LOOK

GET THE LOOK
MONOCHROME

The monochrome bathroom trend provides endless options when styling your bathroom, whether you are going for a classic white tile with black brassware or being more daring with a dark tile throughout, this is a classic trend which simply refuses to go out of style.

Create this look with Satin finish tiles from Johnson Tiles and Karndean wood effect flooring in Ebony.

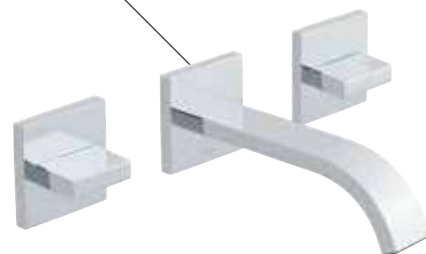

BLACK TILES

Floor to ceiling black tiles is a sure way to create a strong statement throughout your bathroom, as well as a calm, relaxing environment. Pair black tiles with contrast flooring or different textures to avoid the space feeling too enclosed, as well as a white bath and basin to help balance the light.

Geo
Wall Mounted Basin Mixer

See page 44

Black tiles work perfectly with chrome brassware, allowing the light to reflect from the high shine material. Our elegant Geo Wall Mounted Basin Mixer creates contrast and texture against the depth of the satin black tiles, whilst still maintaining the simplicity of the monochrome trend.

PATTERNS Using patterned tiles is a great way to break up a monochromatic design scheme, as well as adding interest to your walls. These tiles from Johnsons Tiles 'One' collection are perfect to adding subtle hints of black and grey throughout the bathroom without having them as the main feature of your space; they can also double up as beautiful pieces of art.

Edit

ACCESSORIES If you're thinking of testing out a monochrome design scheme, an easy way to do this is with prints and little decorative pots to place into your bathroom; as they say, sometimes less is more! By doing this you don't have to make any permanent changes to your bathroom, it's easy to switch up and most importantly, budget friendly!

This graphical print from Desenio offers a soft monochrome design with off-white and dark grey patterns, ideal for a small shelf alongside some terrazzo style candles holders or bathroom plants.

A breath-taking fusion of sleek, linear surfaces working in harmony with smooth masculine silhouettes give the Notion collection a fresh and inspiring design-led feel. Its strong angular lines are used to create a bold contemporary look, perfect for modern luxury interiors.

NOTION

— A striking contemporary product with a sleek high-gloss finish and eye-catching cubic angles, the Notion collection is a true celebration of modern design.

PHOTON ACCESSORIES

OUTSIDE INSIDE.

With wooden surfaces, autumnal shades and open, natural lighting high on the agenda for contemporary bathroom designers, bringing the outside in has never been so important. Made increasingly popular by influencers across the globe, house plants have become the latest to join the outdoor's indoor scene as a quick, easy and effective fix for freshening up the bathroom.

As we look to recreate that sought-after, lounge-like haven, the recent influx of living room furniture has gone hand-in-hand with a range of indoor and outdoor plants; living proof of the bathroom becoming an extension of the house (and indeed the garden).

THRIVING IN HUMIDITY AND MODERATE LIGHT

For smaller bathrooms, hanging baskets and wall mounted shelving can provide the perfect location for spider plants and air plants as they require little attention, obtaining most of their water from moisture in the air. For larger bathrooms, small wooden stools and tables can offer a more aesthetically-pleasing home for ferns, orchids or aloe vera, each thriving in humidity and moderate light. Alternatively, the full-bodied snake plant or Aspidistra plant can happily reside in a complementary pot on the floor.

WG-179M-CP
ATM-SFSRK/2-C/P
SPA-185B-C/P

For those who liken their shower space to a personal rainforest retreat, Chinese evergreens and dragon plants would be an ideal choice for your bathroom, flourishing in steam and low-lit areas. Whilst bamboo epitomises the fascinating colour, form and size that plants can bring to interior design.

The easy to use, flat surface lever, gentle circular lines and sleek surfaces work in harmony to create a modern, yet highly flexible design.

SENSE

— The Sense collection is a seamless blend of classic and contemporary design, combining elegant curves and smooth linear elements. Its fluid, circular silhouette adds a touch of understated elegance and simple sophistication to both modern and classic bathrooms.

GET THE LOOK

Despite being the smallest room in the house, the downstairs toilet or cloakroom is one place where you can really show off your individual style. Through incorporating stylish accessories and functional cloakroom storage even the smallest of bathrooms can be a unique yet practical space for your guests to explore.

MAKE A STATEMENT WITH CREATIVE TILES

Tiles are an ideal way to create a stand-out feature in a compact cloakroom, whether it be through pops of colour, a fresh pattern or unconventional shape there are options to suit every aesthetic. Statement floor tiles are also great way to add some personality to a compact, minimalistic space.

Mosaic tiles create a contemporary and stylish feature in any small downstairs toilet in need of a splash of colour. There are a host of colours, prints, patterns, shapes, and sizes to choose from that any daring interior enthusiast will love.

Create this look using Kasbah Mix from Johnson Tiles, teamed with a contrasting paint colour to add extra drama.

See page 161

REFLECT LIGHT USING MIRRORS

Cloakroom mirrors are an essential addition to your downstairs toilet décor, to create the illusion of space and light. Line the wall behind your basin with mirrored tiles or add extra storage to your small cloakroom with a mirrored cabinet. Pair with a simple chrome tap for a sleek modern appearance.

Large Round Aged Mirror
Ethnicraft - Heavy Bronze

www.amara.com

ADD A PERSONAL TOUCH

Stamp your personality and bring the room to life, using decorative accessories that reflect your personal style or displaying treasured memories and photos.

If you love the coast then escape to the beach anytime with seaside hues of ocean blues, greens and sandy beiges. Add natural textures and striped textiles to create a fresh and relaxed nautical look, whilst personalising with treasures such as postcards and photos. Finish off with nautical accessories such as a porthole mirror, pretty glass jars or seashells to conjure happy holiday memories.

Photon
Mono Basin

See page 78

For a more dramatic look scalloped tiles are slowly swimming their way into modern interiors. One of our favourite collections is the Symmetry - Zinc Gloss Collection from Johnson Tiles. With a colour palette of shimmery blues and greens inspired by A Mermaid's Tail, these tiles are perfect for adding a striking touch to your space.

CLOAKROOM

For environments where space is at a premium, the Cloakroom collection offers innovative and stylish space-saving solutions.

Attractive and highly practical, each design offers the elegance and ingenuity of standard size collections, yet is uniquely tailored to maximise on efficiency.

Created to work in unison with smaller basins, Mini Mono products work particularly well within compact environments such as cloakrooms, shower rooms and en-suites.

I-TECH

Streamlined, touch-free designs, combine the essential elements of both function and form. Sleek curves, linear angles and smart technology are cleverly blended within a simple easy-to-use sophisticated design. With a clean and uncomplicated look, I-Tech is the perfect choice for modern bathrooms.

When installed with a thermostatic valve, this product provides a highly practical water efficient solution. The infra-red touch-free technology makes I-Tech a first-class option for hard-working environments.

BATH OR SHOWER?

TAB-148-OMI-C/P | OMI-HEAD-C/P | WG-EFSA/SQ-C/P | OMI-185-20-C/P | OMI-133-C/P

When planning a bathroom renovation, there are lots of choices for you to make; one of these is deciding how to make the most of your space. No matter how big or small your bathroom is, you can incorporate the latest design trends whilst adding your own unique style to achieve a truly exclusive bathroom aesthetic.

The heart of any large master bathroom is always the centrepiece freestanding bath, accompanied by a floor mounted bath tap to create a luxurious, inviting focal point. Alternatively, if you are looking to take the spa experience to the next level, sunken bath tubs will add a touch of grandeur and sophistication.

COMBINING YOUR BATH AND SHOWER

If your bathroom is short on space, why not combine your bath and shower? By adding a wall or ceiling shower over your bath will allow you to gain extra bathing space without hampering your design. For this area, try to avoid using shower curtains. Although far more affordable, shower curtains often reduce light and visual space whereas clear, glass screens will enlarge your bathroom appearance and are much easier to keep clean.

A walk-in-shower embraces the trend for luxurious bathroom living and space maximisation. Boasting stepless access and room for multiple outlets, these shower spaces remain seamlessly connected to the rest of the bathroom for complete visual freedom.

TABLET VALVE

Compact in form and unique in operation, Tablet is an industry-leading thermostatic shower valve that embraces the latest innovations in water performance.

Combining VADO's **all-flow** functionality with industry-leading, thermostatic technology, Tablet ensures a fully immersive showering experience even at low pressure.

To view the entire range visit
www.vado.com/tablet

ALL-FLOW EXPLAINED

FLOW CONTROL

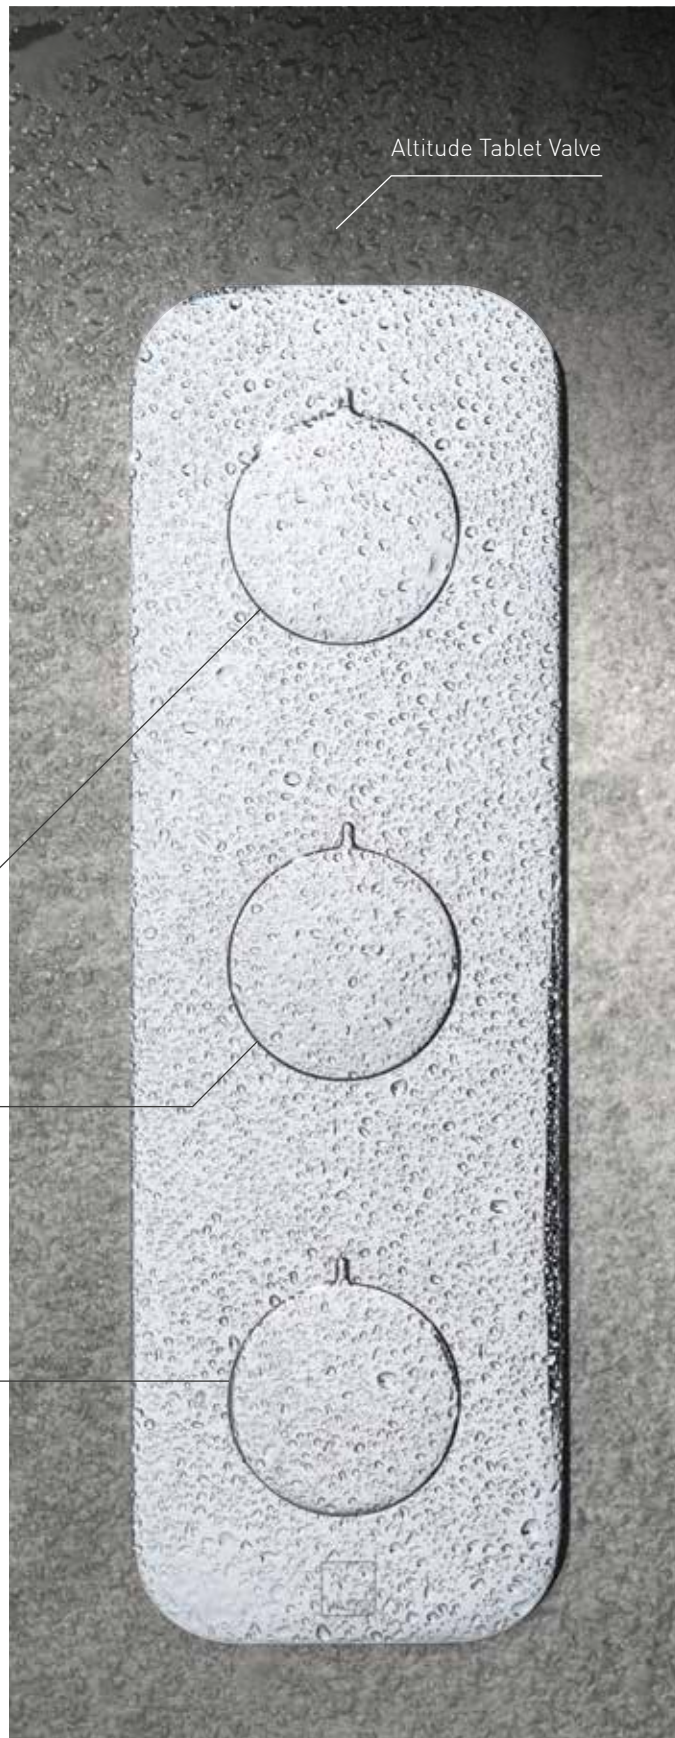

Independently controls the flow of water for up to two outlets which can be operated simultaneously using **all-flow** functionality.

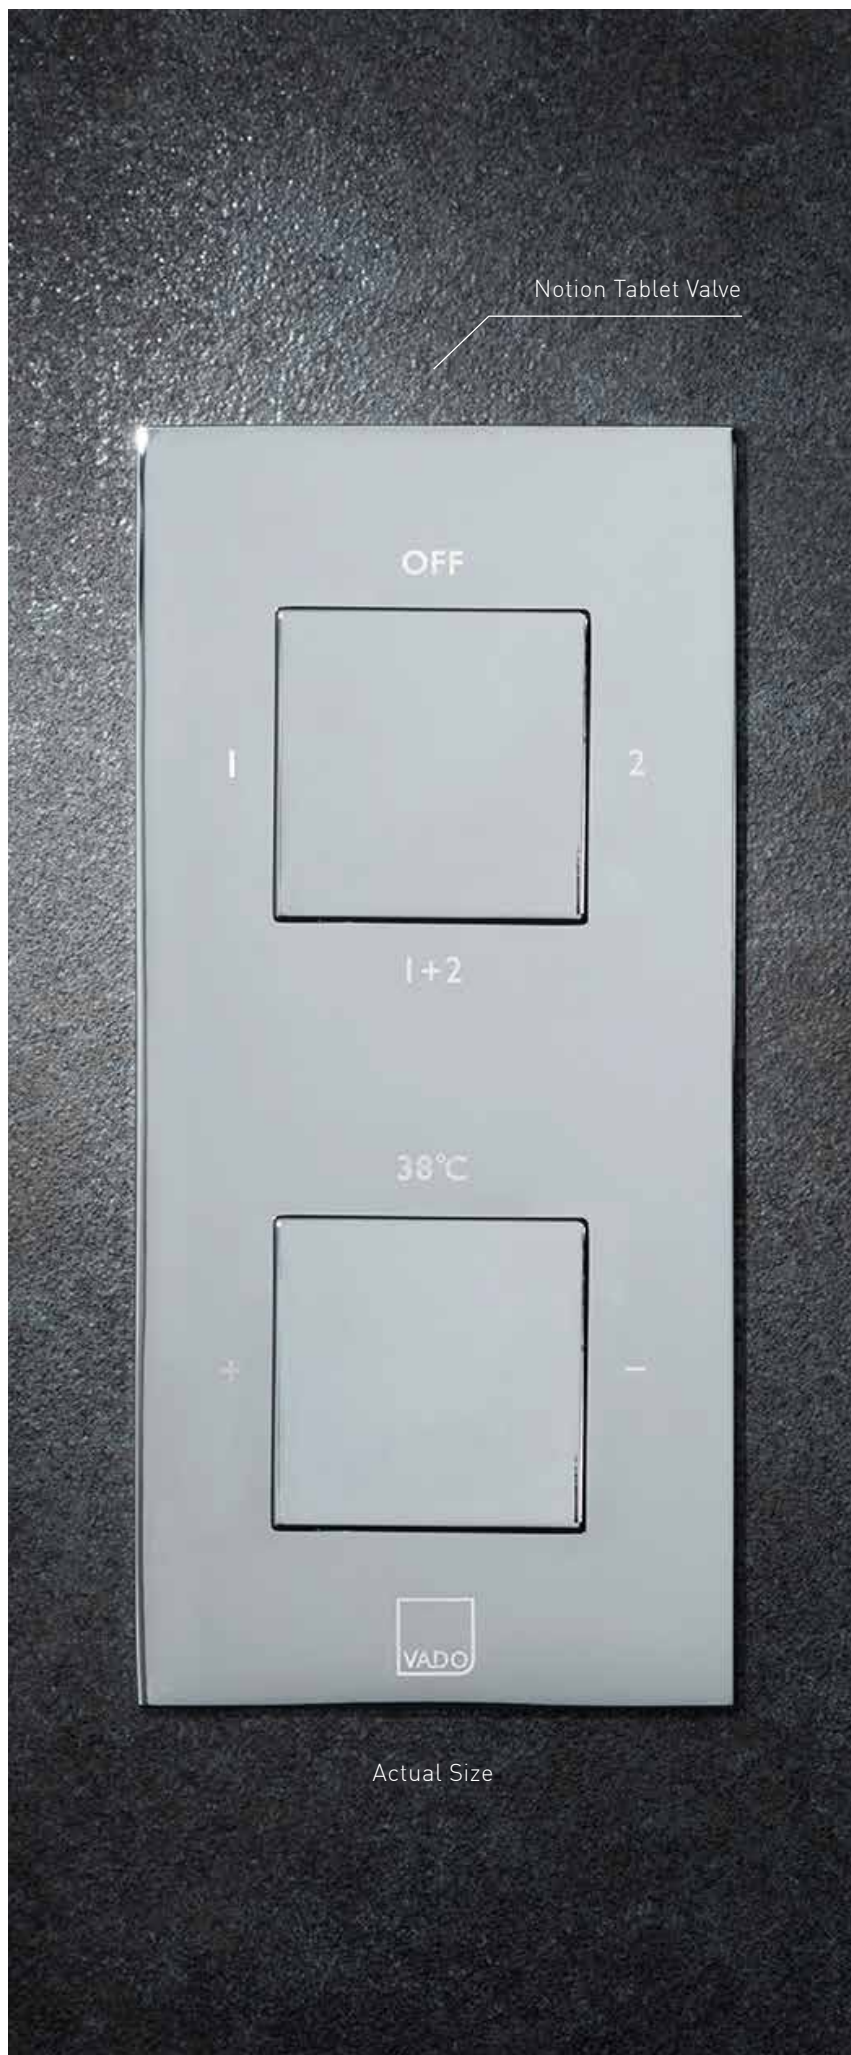

TEMPERATURE CONTROL

To ensure the safety and protection of all users, our leading thermostatic technology ensures temperature stabilisation to prevent scalding and sudden pressure fluctuations.

FLOW CONTROL

Controls the flow of water to one outlet.

KEY FEATURES

- Leading thermostatic technology
- Exceptional safety from temperature fluctuations
- Max pre-set temperature and auto shut-off
- **all-flow** technology delivers water out of multiple outlets simultaneously
- Buttonless 38° temperature stop
- Compatible with all premium ranges, including Omika, Kovera, Altitude and Notion
- Delicately proportioned handle and back-plate
- Contemporary British design
- Ergonomic soft-turn handles
- Compatible with showers and bath fill

TABLET i0

Tablet i0 is the perfect choice for adding a style statement to your bathroom, uniting the best in British design engineering with a wealth of features.

DX VALVE

A sleek and stylish range of thermostatic shower valves perfectly suited to all bathroom interiors.

Boasting **excellent control and remarkable versatility**, the DX valve is available in ten styles and compatible with all VADO collections.

To view the entire range visit
www.vado.com/dx

FLOW CONTROL

Independently controls the flow of water for up to two outlets.

TEMPERATURE CONTROL

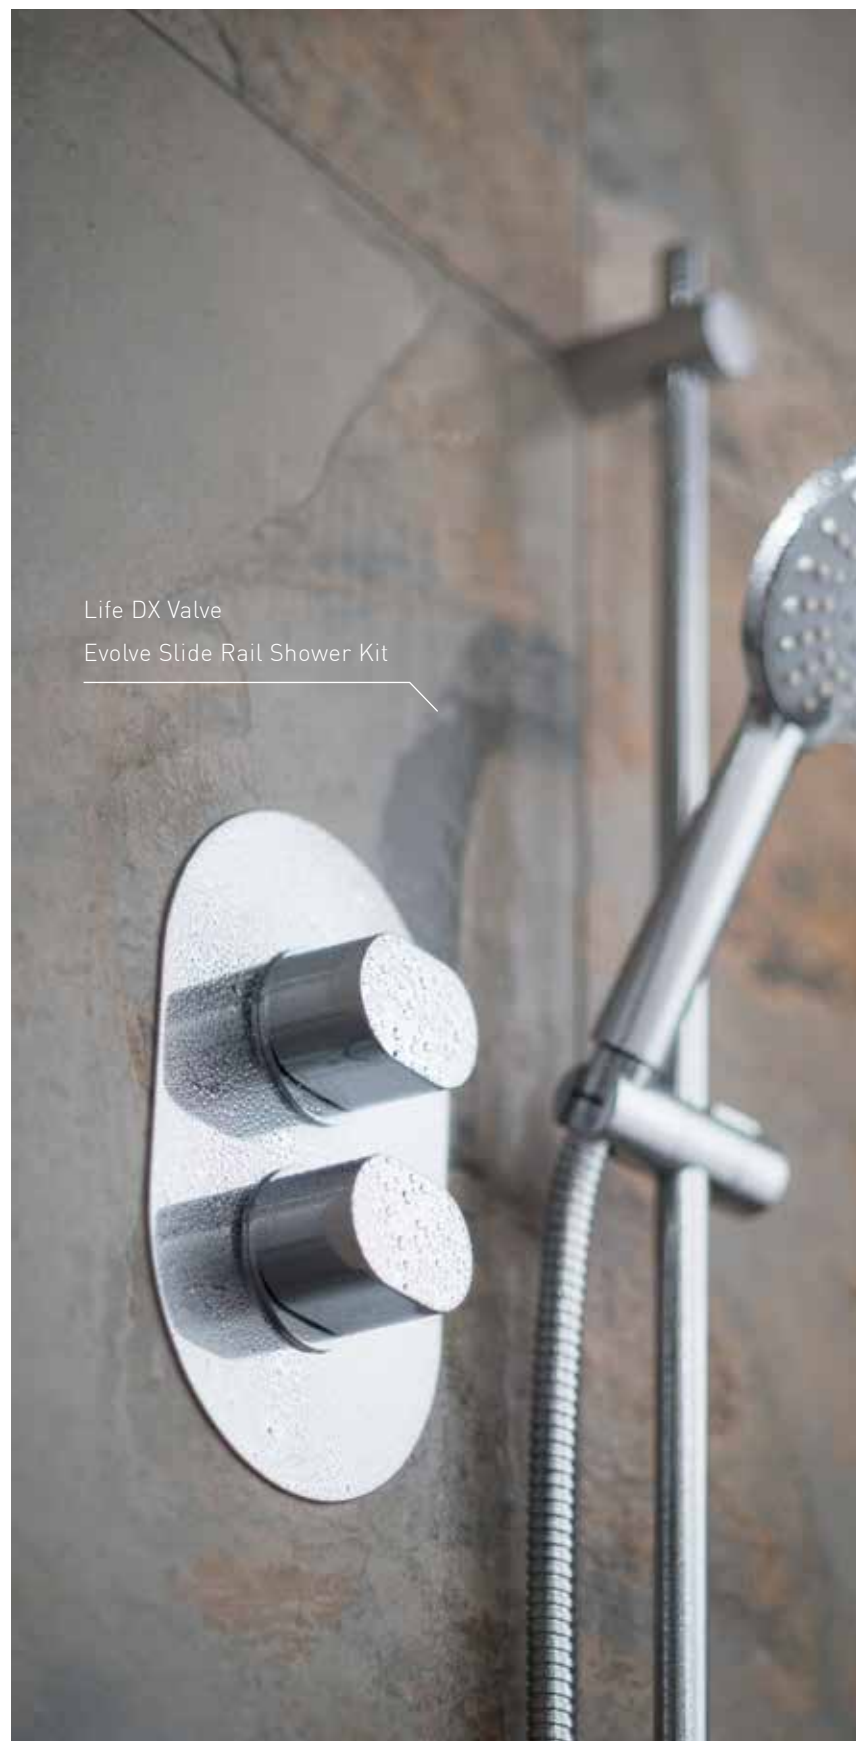

Coupled with a buttonless 38° temperature stop, our leading thermostatic technology ensures temperature stabilisation to prevent scalding and sudden pressure fluctuations for the safety and protection of all users.

Easy to use and easy to fit, the DX valve is truly the fitter's friend – designed to make installation quick and easy.

Safely fill your bath with one of our thermostatic valves. See page 146 to view our collection of compatible bath filler wastes.

KEY FEATURES

- Leading thermostatic technology
- Safety from temperature fluctuations
- Buttonless 38° temperature stop
- Max pre-set temperature and auto shut-off
- Limescale resistant, polymer thermostatic cartridge
- Contemporary designs
- Available in ten styles
- Ergonomic soft-turn handles
- Compatible with showers and bath fill
- Bleed valve fitted as standard for ease of installation

CAPSULE

Capsule introduces a luxurious bathing solution that uses a unique pull-out handset to offer simple, close-up showering.

Featuring a robust concealed box beneath the bath, Capsule also eliminates water ingress by sending it straight to the waste.

For further information visit
www.vado.com/capsule

The Capsule handset is a perfect, seamless blend of rounded and linear design, creating an excellent addition to any bath.

KEY FEATURES

- Slim box design to fit all baths
- Available in both round and square
- Highly flexible anti-kink hose
- Concealed box eliminates water ingress
- Robust construction for years of trouble-free use
- Compatible with all Tablet and DX valves
- Concealed pull-out 150cm hose

Connects directly to the waste outlet via a non-return valve.

BATH FILLER WASTES

Suitable for contemporary and traditional bathrooms, our collection of bath filler wastes integrate overflow waste and bath fill functionality into one simple solution.

Designed to remove water excess, each bath filler waste also acts as a primary bath outlet; a great way to make a functional plumbing item an integral part of your bathroom design.

Clic-Clac Bath Filler Waste + Overflow

Enjoy your shower without a prominent bath filler tap compromising space.

KEY FEATURES

- Integrates overflow waste and bath fill functionality
- Compatible with all Tablet and DX valves ensuring thermostatic operation*
- Compatible with all 3 Hole Deck Mounted Bath Shower Mixers without Spouts
- Available in round and square designs
- Small, refined profile guarantees minimalist appearance

The bath filler wastes' minimal, compact design guarantees a simple style statement.

DID YOU KNOW?

If you have a shower over the bath, you can thermostatically control your shower and your bath using any of our concealed valves.

Visit pages 102-117 to select your valve.

Controlled by either wall or deck mounted valves, our family friendly bath filler wastes remove the need for protruding bath spouts for a streamlined finish.

ACCESSORIES

Complete your bathroom design with our range of contemporary bathroom accessories; the perfect finishing touches.

	<i>TREND REPORT:</i> ACCESSORISE	150		SHAMA	162
	KNURLED ACCENTS	152		PHASE	164
	OMIKA	154		PHOTON	166
	SPA	156		LEVEL	168
	ELEMENTS	158		BASKETS	170
	LIFE	160			

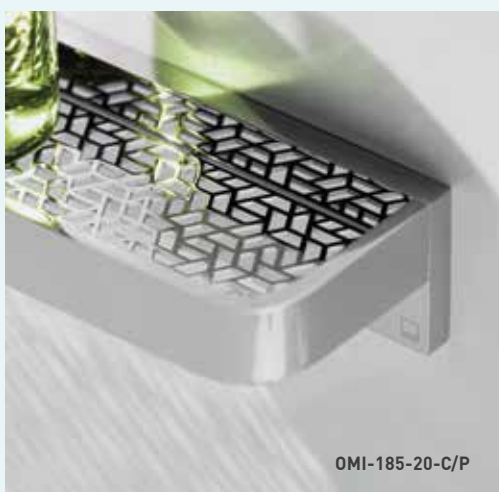

ACCESSORISE YOUR BATHROOM

The master bathroom has established itself as the most stylish and sophisticated room in the contemporary home, allowing unique, decorative elements to enter our room of relaxation.

Incorporating fashionable and functional accessories is often the most enjoyable and cost-effective way to refresh your bathroom; a quick and easy solution to keeping your bathroom on trend and clutter free.

When dressing your room with bathroom accessories, it is the small details that will help to complete your desired bathroom design. Contrasting colours can unite the appearance of the whole room, with chrome fittings over darkened surfaces offering a modern appeal and gold metallics delivering a more industrial look.

If you are looking to create space around your basin, a frosted glass tumbler will offer a convenient home for your toothbrush and toothpaste. In addition, a coordinating frosted glass soap dish will certainly provide a smart and stylish alternative to leaving your bar of soap sitting on the corner of your basin.

THE COLOUR PALETTE OF THE ROOM

Rather than leaving a branded bottle of hand wash in the centre of your basin that conflicts with the colour palette of the room, a chrome soap dispenser will leave your basin clutter free whilst presenting a contemporary finish.

Carefully selecting the colour of your towels will also make a considerable difference to the tone of your bathroom. If your bath and hand towels look tired or clash with the bathroom's colour scheme, you may jeopardise the balance of the room.

IND-SPA185B-BLK
Individual by VADO

How you store your towels can also have a surprisingly effective impact on your bathroom. To avoid leaving your fluffy towels hanging over the bath or on the floor, extended towel rails can prove to be a smart and stylish choice for the master bathroom.

SHA-186-C/P

KNURLED ACCENTS

Add texture to your bathroom with Knurled Accents accessories. Stylish yet functional, whilst boasting a shiny chrome finish and striking diamond cut knurled detailing.

AFTERSALES SERVICE

Often described as the heart of our brand, our Aftersales Team are always on hand for additional support. Experts in our customers and products, they are passionate about delivering outstanding customer service and are dedicated to ensuring our customers get only the best from **VADO** products.

With **VADO**, it's a personal experience.

DIGITAL ASSETS

We are committed to investing in advanced digital technology and software, with **VADO** products featuring on a range of industry leading digital platforms, providing only the best possible experience for our customers.

VIV by VADO

An enriched digital experience that allows **VADO** bathroom brassware to be viewed in full-scale 3D using our industry-leading VIV app.

Inno+

Inno allows our retailers to design bathrooms using photorealistic renders, allowing customers to visualise their new room with **VADO** products in situ.

Virtual Worlds

Our customers are able to bring their dream bathrooms to life, with **VADO** products in situ, by creating 3D digital designs using virtual reality.

OTHER CATALOGUES AVAILABLE

If you'd like to explore more of the **VADO** brands, all of our catalogues are available as PDFs on our website or you can contact our Customer Support Service team, as well as your local **VADO** stockist for printed copies.

GUARANTEE

All VADO products come with a 2 year guarantee as standard. Within this guarantee period VADO will provide replacement parts and any labour [SEE NOTE 1] needed to complete the product repair.

This standard guarantee may be extended by registering your product to give up to a 15 year guarantee period. Once registered:

VADO chromed brassware and stainless steel products have a 15 year guarantee (2 years parts and labour plus 13 years parts only).

Brassware products from the Individual by VADO collection have a 15 year guarantee (2 years parts and labour plus 13 years parts only).

Booth and Co. chrome and nickel brassware products have a 15 year guarantee (2 years parts and labour plus 13 years parts only).

VADO Sensori SmartDial products have a 5 year guarantee (parts and labour).

VADO Identity and i-tech products have a 5 year guarantee (2 year parts and labour plus 3 years parts only).

All other VADO products have a 3 year guarantee (2 years parts and labour plus 1 year parts only) [SEE NOTE 2].

GUARANTEE CONDITIONS

Our products are guaranteed against manufacturing defects from the date of purchase until the expiry of the relevant guarantee period shown above.

The guarantee is only valid if:

1. The product has been installed, used and maintained (maintenance guidelines can be viewed here) in accordance with VADO's instructions and subjected to normal use only.
2. The defect is not due to use of an unsuitable or inadequate water or power supply.
3. The defect is not due to accident, misuse, neglect or incorrect/inappropriate repair (other than by VADO or VADO authorised agents) or damage caused by foreign objects or substances.
4. The extended guarantee is only available if you have completed the Guarantee Registration Process. This can be done via the VADO website or via phone to our aftersales team. Registration must be completed within 6 months from date of purchase.

Under the extended guarantee period VADO will, at its option, offer to supply any replacement product (or component part) assessed to be defective [SEE NOTE 3].

The guarantee (whether standard or extended) is non-transferable to any subsequent owner.

All claims under the guarantee should be notified in the first instance to our Aftersales department, contact details below, this must be done no later than the last day of the relevant guarantee period. All claims must be accompanied by proof of purchase (sales receipt or delivery note) from an official VADO dealer.

The guarantee does not extend to any consequential loss or damage.

After repair or replacement, the relevant guarantee period will be calculated from the original date of purchase.

VADO operates a policy of continuous product development and therefore reserves the right to change the product, packaging and documentation specifications without notice.

NOTES:

[1] Labour via our engineer network is only available in the UK. Attendance by a VADO engineer or sub-contract engineer will be under our standard terms and conditions.

[2] VADO spare parts and shower hoses are under a parts only guarantee.

[3] VADO reserves the right to charge in advance for a product (or replacement part) pending collection and investigation (at VADO expense) to confirm a defect is due to a manufacturing issue. If a defect is found the charge will be refunded or cancelled. This guarantee is in addition to and does not affect your statutory rights as a consumer.
